

### REL.K2100K -

#### Standard Model with Mortice Double Throw Deadlocking Latch

Use the **Keylex 2100K** on all heavy duty, high security external door installations and on any door where heavy traffic or extreme use and abuse can be expected. This includes all military, police and fire service installations.

The proven heavy duty design, with its built-in clutch mechanism protecting the lock furniture, will withstand all but the most violent attack and can be expected to give many years' service if specified and maintained correctly.

#### Standard Features & Benefits

- **Heavy duty mechanism** -  
Allows many hundreds of operations per day
- **Entirely mechanical operation** -  
No electronics or electrical wiring involved
- **Allows code combinations of up to 14 buttons** -  
Over 16,000 selectable code permutations (recommended 3 to 6 digit codes)
- **Code scramble** -  
Allows all codes to be entered in any order
- **Slipping clutch mechanism** -  
Nullifies forced attack or vandalism from the outside
- **Passage function** -  
Allows free passage from both sides at code users' discretion
- **Brushed stainless steel buttons** -  
Will not indicate usage
- **Free exit** -  
Provides escape from the inside, without code entry, regardless of the lock status

#### Double Throw Dead Lock Function

This lock utilizes a double throw deadlocking latch that locks the door every time the door closes.

An authorized code is required to override the lock from the outside unless the passage function is set to 'free' or unless the optional on-board key override facility is available in which case the key will override any pre-set code. The door is always 'free from fixings' for immediate egress from the inside.

**REL.K2100.LATCH**  
76mm backset -  
60mm optional.

### REL.K2100KL.SASH -

#### Option with Mortice Cylinder Sash Lock Case & Euro Profile Key Override

Use the **Keylex 2100KL.SASH** on all high security external door installations and on any door where heavy traffic or extreme use and abuse can be expected. This includes all military, police and fire service installations.

The proven heavy duty design, with its built-in clutch mechanism protecting the lock furniture, will withstand all but the most violent attack and can be expected to give many years' service if specified and maintained correctly.

#### Standard Features & Benefits

- **High quality mortice cylinder sash lock case** -  
Compatible with all Euro profile cylinder options
- **Key override** -  
Allows suited key holder access in all instances without prior knowledge of the user code
- **Heavy duty mechanism** -  
Allows many hundreds of operations per day
- **Entirely mechanical operation** -  
No electronics involved or electrical wiring involved
- **Allows code combinations of up to 14 buttons** -  
Over 16,000 selectable code permutations (recommended 3 to 6 digit codes)
- **Code scramble** -  
Allows all codes to be entered in any order
- **Slipping clutch mechanism** -  
Nullifies forced attack or vandalism from the outside
- **Passage function** -  
Allows free passage from both sides at code users' discretion
- **Brushed stainless steel buttons** -  
Will not indicate usage
- **Free exit** -  
Provides escape from the inside, without code entry, regardless of the lock status

#### Sash Lock Function

This lock utilizes a standard sash lock function that locks the door on the latch every time the door closes.

An authorized code is required to override the latch from the outside unless the passage function is set to 'free' or unless the key override facility is used in which case the key will override any pre-set code.

**REL.K2100.SASH**  
60mm backset only.

Similarly the key will override the deadbolt and the latch in sequence if the deadbolt is thrown. The door is always 'free from fixings' for immediate egress from the inside if a cylinder & turn combination is used to control the deadbolt.
