Electromagnetic Locks

M380E EcoMag[®] Series Magnalock[®]

*600 lbs holding force,
bracket mounted,
sustainable Magnalock*

Intelligent, stylish and secure, with up to 80% reduction in energy consumption over the previous M380 Series.

With integrated features such as built-in smart voltage sensing, tamper sensor and an updated strike plate mounting template, the M380E joins the M680E in the family of sustainable magnalocks.

The M380EBD and M380EBDX models offer additional integrations, such as Securitron's patented BondSTAT lock sensor, Door Position Switch, built-in door prop sensing (which allows the magnet to de-energize the coil when the door is held open for extended periods), and a passive infrared request to exit (PIR REX).

Features

Standard Features

- Sustainability documentation
- Energy efficient, low power usage
- Synchronous double door release using a single Request to Exit
- Auto calibration upon installation
- Automatic dual-voltage – no field adjustment required
- LED Indicator shows the lock is secure, open, or has an incomplete bond
- Tamper Switch sends an alarm output if the cover is removed and is selectable to NO or NC
- Rust resistant – all ferrous metal surfaces plated for durability
- Adjustable automatic relock timer (0 to 30 seconds)
- Wire chamber anti-tamper switch

- Size optimized for use with door closers
- Patented BondSTAT lock sensor and integrated Door Position Switch (DPS) with relock timer
- MagnaCare[®] lifetime replacement, no fault, no questions asked warranty

Optional Features

- **X** Integrated passive infrared request to exit

M680E EcoMag Sustainable Magnalock®

*1,200 lbs holding force,
bracket mounted,
sustainable Magnalock*

The same unsurpassed intelligence, style and convenience as the previous M680 series, but with 80% reduction in energy consumption.

The M680E is intelligent, with built-in door prop sensing allowing the magnet to de-energize the coil when the door is held open for extended periods. The M680EBD offers built-in smart voltage sensing, integrated patented BondSTAT, tamper sensor as well as door position status monitoring. The aesthetics and design finishes of the EcoMag are refined enough for the most discriminating designer openings. It also offers the fastest, easiest, most secure installation of any bracket mount maglock with an updated strike plate mounting template. The optional integrated request to exit (REX) provides optimum coverage for detecting an approaching person so the door unlocks for egress.

Features

Standard Features

- Strike plate mounting template provides the easiest install for out-swing doors
- LED Indicator shows the lock is secure, open, or has an incomplete bond
- Wire chamber anti-tamper switch
- Tamper Switch sends an alarm output if the cover is removed and is selectable to NO or NC
- Available integrated BondSTAT and Door Position Switch
- Autosensing dual voltage with microprocessor technology
- Adjustable automatic reload timer (0 to 30 seconds)
- Energy efficient, low power usage
- Size optimized for use with door closers
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **B** Integrated patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)
- **X** Integrated passive infrared request to exit

DEM680E Delayed Egress Magnalock®

Configurable, 1,200 lbs holding force, bracket mounted, delayed egress Magnalock

Highly configurable, strong, easy-to-mount. The latest in delayed egress technology.

Building on the technology of the Securiton EcoMag Series, the DEM680E is a direct replacement for the iMXDA. Designed for applications that require a lock that delays the opening of a door, the DEM680E standard model is HUGS-compliant with specific code compliant models also available. For use on interior and perimeter exit, single, out-swinging doors.

Features

Standard Features

- Autosensing dual voltage with microprocessor technology – no field adjustment required
- Patented BondSTAT magnetic bond sensor and integrated Door Position Switch (DPS)
- Instant release circuit – no residual magnetism
- Easily visible LEDs indicate status on secure side of door
- Fully integrated delay and detection features for fast installation of delayed egress system
- Auto calibrated door movement detection up to 1/4" [6.35mm]
- Alarm strobe indicates countdown; stays illuminated post alarm until reset
- Size optimized to work with door closers
- External alarm relay isolated dry contact (1 A at 24 VDC)
- Configurable settings include:
 - » Nuisance delay times 0, 1, 2, or 3 seconds
 - » Irrevocable alarm times 15 or 30 seconds
 - » Bypass delay times 0, 15, 30, 45 seconds
 - » No irrevocable alarm after bypass expiration

- » Post alarm reminder
- » Bypass expiration alarm
- » Manual/delayed relock
- » Unlocked at startup
- Required sign included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- 8 architectural finishes
- DEM680E-CA15S California-required 15s exit delay
- DEM680E-CA30S California-required 30s exit delay
- DEM680E-CH Chicago-required 15s exit delay, 1s nuisance delay, and 0s bypass time

Accessories

- Securiton mortise keyswitch and cylinder included in box – supports electric lock control, alarm panel arming, reset and override

iMXDa Delayed Egress Magnalock®

Configurable, 1,200 lbs holding force, delayed egress Magnalock

Integrated movement exit delay with all-in-one Magnalock.

Prevent losses at emergency exits with iMXDa. An attempted exit initiates an alarm and initiates a brief delay timer before the lock releases, giving personnel time to respond before an exit occurs. Protect memory care wards, hospitals, dormitories, airports, child care facilities and retail or warehouse environments. Used on out-swing doors, installation requires no alteration or replacement of existing fire-rated or non-fire-rated latching hardware.

Features

Standard Features

- Automatic dual-voltage —no field adjustment required
- Bracket mounting provides the easiest install for out-swing doors
- Size optimized for use with door closers
- Patented BondSTAT lock bond sensor
- Instant release circuit —no residual magnetism
- Internal wire access chamber
- Easily visible LEDs indicate status on secure side of door
- Advanced intelligent microprocessors provide alarm options and trainable door movement detection to minimize false alarms
- Permits free egress in emergency situations
- Fully integrated delay and detection features for fast installation of delayed egress system
- Easily adjustable door movement detection from 1/8" [3.2 mm] to 1" [25.4 mm]
- External alarm relay isolated dry contact (1A at 24 VDC)
- External reset
- Keyswitch reset

- Configurable settings include:
 - » Nuisance alarm times —0 to 3 seconds
 - » Irrevocable delay times —15 or 30 seconds
 - » External bypass delay times —0, 5, 10, or 15 seconds
 - » Post alarm reminder
 - » Bypass expiration alarm
 - » Manual relock or delayed automatic relock (BOCA)
- Required sign included
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- Rust resistant – all ferrous metal surfaces plated for durability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- iEXDa allows alarm initiation via an external panic device
- iMXDa-CA is CAL Fire BML listed
- iMXDaCH is Chicago compliant
- iMXDaH for HUGs® Infant Protection System

Specifications

Certifications

- CAN/ULC-S533 Listed

XDT Exit Delay Timer

Sophisticated control in an easy-to-use, modular exit delay timer

Configurable exit delay is ideal for fail safe environments that have varying needs throughout the day.

Function is compatible with entry control, door/lock monitoring and authorized immediate exit. Widely used in healthcare environments to alert for patient exit and in retail environments to prevent theft.

How to Order

MOUNTING METHOD	MODEL SERIES	VOLTAGE
BA –	XDT	– 12
(blank) Circuit Board only	XDT Exit Delay Timer	12 12 VDC
BA Boxed		24 24 VDC
FA Flush Mount		

Features

Standard Features

- Meets all code requirements including the BOCA 30 second relock function
- Nuisance delay and release times are digitally set using precise DIP switches
- Three 5A SPDT relays for interface capabilities
- External switches such as time clocks can put the XDT into different functions when delayed exit is not desired at all times
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **XDT** is board only
- **BA-XDT** in surface mount enclosure with piezo sounder and door label
- **FA-XDT** is a flush mount plate enclosure with piezo sounder and door label

Modular Exit Delay System

Build an exit delay system customized to your specific application

When the demands of your door environment require specific components, ASSA ABLOY's UL/ULC Exit Delay System (EXD) delivers a system that meets your specific needs.

National Building Code of Canada. This modular approach suits the specific locking requirements of all doors, as well as the desired level of physical security and ease of maintenance.

Modular delayed egress that complies with NFPA 101 Life Safety Code and conforms to IBC and

See individual product pages for complete specifications.
Review local codes and amendments for delayed egress

With modular upgrades, maintenance and replacement, Component EXD evolves with your changing access control needs.

1. Select a locking device *(one per door)*

- Determine type of mounting
 - » Direct, Bracket, or Shear
- Determine holding force required
 - » 600 lbs to 1,800 lbs
- Choose from the following products:
 - » M32, M38, M62, M68, M82, M380E or M680E

2. Choose an initiating device *(one per door)*

- Determine type of egress
 - » Egress Control Only or Egress Control with Electronic Access Capability
- Choose from the following products:
 - » SB-MXD, LML, LMS, DSB, TSB, TSH, EMB
 - » Sargent®: 80 Series w/55 prefix
 - » Adams Rite® 3700, 3600, 3300, 3100

3. Choose an exit delay timer *(one per opening)*

- Choose from the following products:
 - » XDT, BA-XDT, FA-XDT
- If XDT is chosen, a sounder must be installed
- If BA-XDT or FA-XDT is chosen, a Sonalert and exit sticker are included
- More than one door requires purchases of additional EXD-1L Door Label

4. Choose a system reset *(one per opening)*

- Determine required reset method
 - » Manual (IBC, NFPA 101 and NBC of Canada) or Automatic (IBC)
- Choose from the following products:
 - » MK Series with momentary switch for Manual Reset
 - » DPS-W and DPS-M for Automatic Reset

5. Choose a power source *(one per building)*

- Component EXD is based on a single power supply
- Power source or other output board must have a fire relay for connection to FA system.
- Different sizes are available depending on the number of doors
- Choose from AQ, BPS or BPSM Series

SB-MXD Exit Delay Sex Bolt

The SB-MXD detects door movement and initiates a signal for delayed egress when used in conjunction with ASSA ABLOY's XDT logic timers.

Door movement tolerance ranges from 1/2" – 3/4". Options are available for standard, thin and thick doors. Backed by our MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

Dimensions

PART NUMBER	DESCRIPTION
SB-MXD	SB-MXD Sex Bolt Kit—Door Movement

Request additional part # 390-15690 for doors > 2" [50.8mm] thick.

Request additional part # 390-15650 for doors < 1.75" [44.45mm] thick.

Building Codes Affecting Delayed Egress in the United States and Canada

The following general information on code requirements should not be considered definitive. The information provided represents Securitron's best understanding of individual codes at the time of this catalog's printing.

The following chart describes four individual building code requirements in five areas of function: Nuisance Delay, Release Delay, Post Alarm Relocking, Power Loss and Special Application Requirements.

Codes, however, may change and are also subject to local interpretations that may differ from those provided here. Please consider this information as a preliminary point of reference which should be confirmed or altered in accordance with the direction given by any local authority having jurisdiction (AHJ).

CODE	NUISANCE DELAY	RELEASE DELAY	POST-DELAY RELOCKING	UPON FIRE ALARM OR LOSS OF POWER TO LOCK	SIGNAGE	SPECIAL APPLICATION REQUIREMENTS
NFPA-101-2009 National Fire Protection Association	0-3 Seconds	15 Seconds or 30 Seconds with AHJ approval	Manual Means Only	Doors Unlock and Immediate Egress is Possible. Emergency Lighting Required.	PUSH UNTIL ALARM SOUNDS. Door Can be Opened in 15 (30) Seconds.	Additional Delayed Egress Systems Allowed in an Exit Path.
NBC 2010 National Building Code of Canada 2010		15 Seconds	Manual Means Only	Doors Unlock and Immediate Egress is Possible.	PUSH UNTIL ALARM SOUNDS. Door Can be Opened in 15 (30) Seconds. Mount within 12" of Releasing Device.	
IBC 2009 & 2012 International Building Codes	1 Second	15 Seconds or 30 Seconds with AHJ approval	Manual Means Only	Doors Unlock and Immediate Egress is Possible. Emergency Lighting Required.	PUSH UNTIL ALARM SOUNDS. Door Can be Opened in 15 (30) Seconds. Mount within 12" of Releasing Device.	
IBC 2015 International Building Code	0-3 Seconds	15 Seconds or 30 Seconds with AHJ approval	Manual Means Only	Door Releases Upon Loss of Power.	PUSH UNTIL ALARM SOUNDS. Door Can be Opened in 15 (30) Seconds. Mount within 12" of Releasing Device.	DOOR Can Remain Locked From Outside. I-2 and I-3 Allow Two 15 Second Delays in One Exit Path. Exceptions on Signage in I-1.

M32 Magnalock®

600 lbs holding force
direct mounted Magnalock

The ultimate in Magnalock reliability for indoor/outdoor traffic control.

The M32 electromagnetic lock is ideal for traffic control in high-use areas within secured or monitored perimeters. With unsurpassed durability, the M32 will last long after most buildings wear out. Applications include storage areas, rooms, and hallways where reliability, high durability and low-maintenance are required.

NOTE: M32-SS in cabinet lock section. See page #48.

Features

Standard Features

- Fire rated—3 hours
- PoE friendly
- Sustainability documentation
- Efficient, low power usage
- Automatic dual-voltage—no field adjustment required
- Fully sealed for weather resistant operations
- Size optimized for use with door closers
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit—no residual magnetism
- Noise suppression with built-in MOV
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **F** Face drilled

M62 Magnalock®

1,200 lbs holding force
direct mounted Magnalock

The ultimate in Magnalock versatility for indoor/outdoor higher security.

The M62 is a strong, easy-to-maintain solution for interior, perimeter and exterior access control. With unsurpassed durability, the M62 will last long after most buildings wear out. Flexible mounting options support applications for hollow metal, concrete filled metal, wood, or glass with aluminum frames, and all glass doors. Options include single and double door configurations, or specialty applications such as gates and fences, and hazardous locations.

NOTE: M62FG-SASM in Specialty Lock section. See page #62.

M82 Magnalock®

*1,800 lbs holding force
direct mounted Magnalock*

Industrial strength hold for challenging indoor/outdoor environments.

The M82 electromagnetic lock offers unsurpassed magnetic holding strength, durability and ease of maintenance for interior, perimeter and exterior access control applications in high-risk environments. With unsurpassed durability, the M82 will last long after most buildings wear out. Flexible mounting options are available for higher security locations and other environments where extreme forces may be encountered.

Features

Standard Features

- Efficient, low power usage
- Automatic dual-voltage —no field adjustment required
- Fully sealed for weather resistant operations
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit —no residual magnetism
- Noise suppression with built-in MOV
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **F** Face drilled
- **G** Gate conduit
- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)
- **SS** Split Strike
- **OS** Offset Strike

AOS Offset Strike Plate

- Alters the position of the mounting hole by 1/4" [6mm]. This is often required to clear the glass on aluminum frame store front doors.
- Includes Offset Strike Plate only.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION
AOS-62	Strike Plate – M62, Offset
AOS-62D	Strike Plate – M62D, Offset
AOS-82	Strike Plate – M82, Offset

ASS Split Strike/Replacement Strike Plate

- Allows a single M32, M62 or M82 Magnalock to secure a double door at traffic control holding force level.
- Includes Split Strike Plates only.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION
ASS-32	Strike Plate M32 – Split Set w/ Fasteners & Sex Bolt
ASS-62	Strike Plate M62 – Split Set w/ Fasteners & Sex Bolt
ASS-82	Strike Plate M82 – Split Set w/ Fasteners & Sex Bolt

ZA Z Bracket Kits – Adjustable

- Use on in-swing doors with Magnalock "F" options (8-1/2" [215.9mm] overall length).
- Provides 1-1/4" [31.75mm] of lateral movement to accommodate most openings and allows for precision adjustments (2-1/4" to 3-1/2" [57.15mm to 88.9mm] from door/header).
- Includes an oversized dress cover.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

M32/62/82 Magnalock Accessories

EASB Energy Absorbing Sex Bolt

The Energy Absorbing Sex Bolt provides additional protection and shock absorption to augment holding force when a door experiences dynamic forces such as kicks or repeated blows. Used in mental health care and detention ancillary or administrative doors, and perimeter doors.

- For high-security applications on inflexible doors.
- Replaces the standard Sex Bolt.
- Contains a powerful internal spring that absorbs and dissipates the force of a blow.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION
EASB-250	Energy Absorbing Bolt – 1/4" [6.35mm] Spacer Kit
EASB-32	Energy Absorbing Sex Bolt – Model 32
EASB-62	Energy Absorbing Sex Bolt – Model 62
EASB-82	Energy Absorbing Sex Bolt – Model 82

TDK-1 Accessory for Thick Doors

- Provides replacement screws so armature plates for the M32, M62, M82, M38 and M68 can be used on doors thicker than 1-3/4" [44.45mm], and up to 3" [76.2mm].
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION
TDK-1	Thick Door Kit

SB-1 Sex Bolt Replacement

- Replaces armature plate sex bolt for M32, M38, M62, M68 and M82B Magnalocks.
- Available in clear, polished brass or oil rubbed bronze finish.
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty.

PART NUMBER	DESCRIPTION	FINISH

HHD	-32	(83")
HHD	32	HHD Max Length 96"
HHSL	62	HHD Max Length 96"
HHSR	82	HHSR Max Length 48"
HVD		HVD Max Length 96"

NOTE: Configurable parts HHSL-82 and HHSR-82 have been discontinued. Not every combination is possible. Please contact the factory if you need a combination of features not listed above.

MagnaCare
Warranty

Securitron

*The premier supplier of
electromagnetic locking solutions.*

When you choose a genuine Magnalock®, you get quality solutions for high traffic and high security applications plus MagnaCare® Lifetime Replacement No-fault Warranty.

Intelligent & Sustainable Magnalocks

- Available with PIR REX, BondSTAT® and DPS reduce the number of devices to buy and install at the door.
- Sleek, low profile and refined lines for aesthetically demanding applications.
- Patent-pending template and bracket mounting system enable accurate alignment of magnet and armature plate for maximum holding force, installs in less than 22 minutes.
- Reduces energy consumption by up to 80%.

Durable Magnalocks

- Lower power usage than competitor locks. At three watts (less wattage than a typical nightlight), a Magnalock operates efficiently with a smaller power supply, thinner wiring and longer battery backup. Magnalocks consume less energy, generate less heat and outlast the competition.
- 100% waterproof design, shock absorbing polyurethane, stainless steel casing and plated lock face that is impervious to corrosion operate from -40°F to 140°F [-40°C to 60°C].
- Instant release circuit with no residual magnetism and no inductive kickback.

**MagnaCare
Warranty**

All Magnalocks Include

- Automatic dual-voltage uses 12 or 24 volt power supply and protects Magnalock
- World-class technical support experts, ready to assist you in selecting hardware, wiring and troubleshooting your opening
- Collapsing blind nuts, securely anchor Magnalocks to the frame with up to 4,000 lbs of tensile strength
- Excellent product quality—Magnalocks are manufactured in an ISO9001 and ISO14001 certified factory in Phoenix, AZ
- MagnaCare®, the best warranty in the industry – lifetime replacement, no-fault, no questions asked

M38 Series Magnalock®

*600 lbs holding force,
bracket mounted Magnalock*

Easily installed,
bracket mounted
Magnalock for interior
applications.

The M38 electromagnetic lock is ideal for traffic control in high-use areas within secured or monitored perimeters. Offerings include solutions for interior rooms, closets and hallways where reliability, high durability and low maintenance are required. Bracket mounting and wiring chamber provide quick, accurate installation.

Features

Standard Features

- Automatic dual-voltage
—no field adjustment required
- Bracket mounting provides the
easiest install for out-swing doors
- Rust resistant—all ferrous metal
surfaces plated for durability
- Instant release circuit
—no residual magnetism
- Internal wire access chamber
- Noise suppression with
included MOV
- Ultra-secure collapsing blind
nuts mount to door frame
for strength and reliability
- MagnaCare® lifetime replacement,
no-fault, no questions asked warranty

Optional Features

- **D** Integrated Door
Position Switch (DPS)
- **L** LED indicator
- **T** Anti-tamper switch

Universal Magnalock® Accessories

IK Installation Kit

This convenient, cost effective kit contains everything an installer needs to achieve professional, high quality Magnalock® installations. The IK offers substantial savings over purchasing the same items separately.

Securitron's original installation kit includes the following components:

- Tool Box
- Heavy Duty Drill Guide
- Blind Nut Placement Tool
- Sex Bolt – M32/M62/M82
- T-Handle Hex Wrench
- Hardware Packs
- M32/M62/M82
- Rubber Washers
- Flat Washers
- Insulated Crimp Connectors
- Threadlock
- 1/8" Cobalt Drill Bit
- 3/8" Cobalt Drill Bit
- 3/8" Carbide Drill Bit
- 1/2" High Speed Drill Bit
- Blind Nuts with Collapsing Tool
- Finish Caps
- Long Screw Pack

- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

PART NUMBER	DESCRIPTION
IK	Installation Kit

Glass Door Accessories

- AKG permanently bonds to the glass using a special industrial adhesive
- GDB permits strike plate installation on a solid glass door
- HEB-3G allows for Magnalock installation on all-glass header when used with AKG
- Use HEB-3G with M32, M62, 3" x 3" x 8" [76.2mm x 76.2mm x 203.2mm] with specially milled back
- Strike Plate screws into the bracket, as glass doors cannot be drilled

PART NUMBER	DESCRIPTION
AKG	Adhesive Kit for GDB
GDB	Glass Door Bracket
DCP-12X3	Dress Cover Plate, 12" x 3" [304.8mm x 76.2mm] for larger strikes (M680E, M380E)

Universal Magnalock Accessories

HEB Header Extension Bracket

- 90 degree angle brackets
- Extends narrow headers to permit proper mounting of Magnalocks
- Use with M32, M62, M82, M38, M68, M380E, M680E
- Available in clear aluminum or black anodized
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

DM62 Magnalock®

The ultimate 1,200 lbs holding force Magnalock double magnet for indoor/outdoor high security

The versatile DM62 electromagnetic lock offers strength and ease of maintenance for interior, perimeter and exterior access control—in a compact double magnet.

This all-in-one unit is designed for double doors with no mullion. With unsurpassed durability, the DM62 will last long after most buildings wear out.

Features

Standard Features

- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- Fully sealed for weather resistant operations
- 3' [1 m] of jacketed, stranded conductor cable for each lock
- Automatic dual-voltage —no field adjustment required
- Instant release circuit —no residual magnetism
- Noise suppression with built-in MOV
- Efficient, low power usage
- Rust resistant —all ferrous metal surfaces plated for durability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated door position switch (DPS)
- **OS** Offset strike plates

M34R Recessed Magnalock®

*500 lbs holding force,
recessed Magnalock*

Recessed Magnalock for traffic control on a sliding door.

The M34R secures single sliding doors with Magnalock strength for traffic control applications within a monitored perimeter. The recessed design on the edge of the door that comes against the frame when the door is closed conceals the maglock for hidden protection that blends with the aesthetics of the opening. Ideal on automatic single sliding doors or on sliding doors for patios, storage closets and more.

Features

Standard Features

- Efficient, low power usage
- Automatic dual-voltage—no field adjustment required
- Fully sealed for weather resistant operations
- Rust resistant—all ferrous metal surfaces plated for durability
- Instant release circuit—no residual magnetism
- Noise suppression with built-in MOV
- Recessed for aesthetically appealing finish
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Direct mount in door frame for strength and reliability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

SAM Shear Aligning Magnalock®

1,200 lbs holding force, shear aligning Magnalock

Hidden strength for any application.

This concealed Magnalock is ideal for traffic control or medium security and with its flexible mounting options solutions the most challenging door control situations. The SAM Shear Aligning Magnalock has mounting options for a single door or each leaf on a pair of doors and can be on a sliding, in-swing, out-swing or swing-through door. It mounts fully concealed into wood, steel, aluminum or latching in any position: at the header, door edge or threshold.

Features

Standard Features

- Efficient, low power usage
- Automatic dual-voltage — no field adjustment required
- Fully sealed for weather resistant operations
- Rust resistant — all ferrous metal surfaces plated for durability
- Instant release circuit — no residual magnetism
- Noise suppression with built-in MOV
- Recessed for aesthetically appealing finish
- 10 ft [3.05m] of jacketed, stranded conductor cable
- Direct mount in door frame for strength and reliability

SAM2-24 Shear Aligning Magnalock®

*600 lbs holding force,
shear aligning Magnalock*

Hidden strength at any angle ideal for traffic control.

The compact and versatile SAM2-24 Shear Aligning Magnalock provides 600 lbs. of holding force to swinging or sliding doors. It is ideal for traffic control and to secure smaller applications, like sliding closet doors, atriums, and more. The SAM2-24 mounts fully concealed into wood, steel, aluminum or Herculite doors in any position: at the header, door edge or threshold.

Double Sliding Doors		x
Single Sliding Doors	x	

All Magnalocks are fail safe electric locking devices

Magnalock® Options

Anti-Tamper Sensor (T)

The Anti-Tamper option provides a Single Pole Double Throw (SPDT) switch output that indicates if the wire access chamber cover has been tampered with or removed. When connected to an alarm point on an alarm panel or access control system, it offers real-time notification of tampering attempts.

Door Position Switch (D)

The Door Position Switch (DPS) provides a signal to an access control system indicating whether the door is open or closed. When used in conjunction with BondSTAT or SenSTAT, it provides layered status indication for precise information about the door state. The DPS may be ordered included with many Magnalocks — or as an upgrade kit.

SenSTAT (S)

Unlike commonly used door position switches that indicate only that a door is closed, SenSTAT detects the presence of an armature plate and notifies the access control or alarm system that the magnet is engaged. All SenSTAT Magnalocks use Form 'C' isolated contacts.

BondSTAT (B)

BondSTAT is the next generation of patented electromagnetic lock monitoring. BondSTAT delivers unparalleled peace of mind by detecting an armature plate and notifying access control and/or alarm systems that a door is properly secured. BondSTAT's sensitive magnetic field monitors the entire surface of the armature plate, providing maximum assurance that the lock is engaged. Movement in the armature's position beyond the set tolerance alerts the access control system that the Magnalock may not be generating its full holding force.

Conduit Fitting (G)

The conduit fitting option is offered on some Magnalocks that can be used for gate-mounting applications and features a 3/4" outer diameter and 1/2" inner diameter.

Offset Strike Plate (OS)

An Offset Strike Plate may be required for proper installation of a Magnalock in aluminum frame door applications.

Split Strike Plate (SS)

A Split Strike Plate may be used for a double door with no mullion to provide traffic control using a single Magnalock.

Face Mount (F)

Face Mount Magnalock options provide the holes for the mounting bolts through the face of the magnet in a front-to back orientation rather than through the magnet bottom-to-top.

LED (L)

The LED provides a local visual indicator of the status of the lock. On locks with the SenSTAT option, the LED will be green when the lock is powered but not secure, and red when the lock is secure. Locks without the SenSTAT option will only indicate green when powered.

Request to Exit (X)

Some Magnalock models offer an integrated motion detector that automatically signals the lock to disengage when it detects approaching traffic, also known as request to exit (REX).

Cabinet Locks

MCL Cabinet Magnalock®

The compact versatile asset management cabinet locking solution

The MCL is ideal for extending access control to all sizes and shapes of cabinets and enclosures that require asset protection.

Typical applications include jewelry cases, museum cases, gun cabinets, pharmaceutical storage cabinets, cash drawers and any swinging or sliding door or drawer that needs asset control — indoors or out.

Features

Standard Features

- Direct mount or bracket mount with common tools for easy installation
- Universal bracket included to support a variety of applications
- Efficient, low power usage
- Fully sealed for weatherproof operation
- Rust resistant — all ferrous metal surfaces plated for durability
- Sealed 6 ft. [1.8m] jacketed, stranded conductor cable

Specialty Locks

GL1 Gate Lock

Electromechanical gate solution offers one ton of holding power

The heavy duty GL1 Electromechanical Gate Lock provides weather-resistant access control for a wide range of gate applications.

The GL1 provides 2,000 lbs of holding force for electrical and manually operated indoor or outdoor gates where preload is a concern. Ideal for swinging or sliding vehicle, pedestrian or stock gate access control.

Features

Standard Features

- 2,000 lbs holding force
- Operates under preload up to 100 lbs
- Automatic dual-voltage—no field adjustment required
- Accepts a standard mortise cylinder with Adams Rite MS cam for manual key override (not included, see spacer guide below)
- Self-aligning receiver (+/- 1/2" [12.7mm] horizontally) helps compensate for gate misalignment and sag
- Tamper resistant cast housing
- Optional latch status monitor
- Surface mount
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **FL** Fail locked
- **FS** Fail safe
- **M** Monitoring option

FMK Flex-Mount Gate Lock Bracket Kits

Bracket kits extend access control to gates and fences

The FMK Flex-Mount Bracket System is an intuitive set of mounting brackets designed exclusively for use with the M62FG Magnalock® and the GL1 Gate Lock.

Pre-formed post channels and plates of varying lengths make it easy for you to assemble a professional looking, high-security gate lock mounting platform in minutes, without special tools.

Features

Standard Features

- Permits electronics to be mounted on fence posts or gate posts
- Brackets are reversible
- Bracket kits include brackets, mounting hardware and post shims
- Post brackets are pre-drilled
- Zinc-plated steel provides durability and long life
- Bolt on or weld for installation
- Compatible with maximum 3" [76.2mm] round post with minimum pole separation of 1" [25.4mm]
- Use with post shim brackets for smaller post sizes
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Shipping Weight

- 13.4 lbs [6.08kg]

Notes

- M62FG and GL1 can be direct mounted on square posts
- To use FMK-SL with M62FG-SASM, post separation should be 1" to 2-1/4" [25.4mm – 57.15mm]
- To use FMK-SW with M62FG or GL1, post separation should be 1" to 2-3/4" [25.4mm – 69.85mm]
- To use FMK-SL with M62FG or GL1, post separation should be 1" to 3-3/4" [25.4mm – 95.25mm]

MM15 MEMLOCK® Magnetic & Mechanical Lock

*4,000 lbs holding force,
bracket mounted, magnetic
electromechanical lock*

Unique hybrid design,
with two tons of
holding power.

The hybrid design of this magnetic electromechanical lock includes two springloaded, hardened steel jaws that deliver up to 4,000 lbs of ultimate holding power. In a forced-entry assault, the jaws of the MM15 MEMLOCK clamp down on the armature plate and hold firm, for an unmatched level of access control.

Features

Standard Features

- Efficient, low power usage
- Ideal for mental healthcare and auxiliary detention facilities and other high-risk locations
- Automatic dual-voltage — no field adjustment required
- Mounting plate for easy, accurate installation
- Size optimized for use with door closers
- Accepts AC or DC current
- Ultra-secure collapsing blind nuts mount to door frame for strength and reliability
- Fail safe
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **G** Gate conduit
- **D** Integrated Door Position Switch (DPS)
- **T** Anti-tamper switch

M62FG – SASM Gate Magnalock®

*The shock absorbing 1,200 lbs
Magnalock solution for outdoor gates*

The M62FG-SASM is the only heavy duty Magnalock specifically designed to secure and protect gates.

This weatherproof unit delivers 1,200 lbs of holding force and comes equipped with conduit fittings and a special shock absorbing strike mount (SASM). This unique design dramatically prolongs the life of the lock, the gate and other hardware by controlling excessive impact between the strike plate and the magnet.

The SASM is also available as a separate retrofit kit and is compatible with M32, M62 or M82 Magnalock strike plates for areas prone to excessive force closures or slamming.

Features

Standard Features

- Flexible bracket options for swinging or sliding applications
- Fully sealed for weatherproof operations
- Includes universal threaded conduit fitting 1/2" [12.7mm] female – 3/4" [19mm] male
- 10 ft. [3.05m] of jacketed, stranded conductor cable
- Noise suppression with built-in MOV
- Automatic dual-voltage —no field adjustment required
- Rust resistant—all ferrous metal surfaces plated for durability
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **B** Patented BondSTAT magnetic bond sensor
- **D** Integrated Door Position Switch (DPS)
- **F** Face drilled
- **G** Gate conduit
- **SASM** Shock absorbing strike mount—shock absorption and rebound assistance for proper gate alignment

DK-12 Digital Keypad System

All-in-one keypad system for single door traffic control

The DK-12 standalone keypad is ideal for lower security applications such as traffic control.

Easy to install and to program, the one-piece DK-12 supports 99 user codes, including Passage mode and Lockout mode.

Features

Standard Features

- Single gang, stainless steel plate with low voltage mounting ring
- 12-key illuminated 3x4 keypad
- True 10-digit operation (10 digits plus * and # keys)
- 99 user code capability
- Easy programming from the keypad
- Passage mode and Lockout mode
- Configurable audible keystroke echo
- Red, green and yellow LEDs for status and programming feedback
- Fail secure or fail safe-capable
- Easy to install with simple hand tools
- 5A SPDT timed, control relay output
- Request to exit (REX) input
- Primarily for indoor applications
- US32D/630 Satin Stainless Steel finish
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

DK-16 Digital Keypad System

*Secure, easy-to-program,
single-door control system*

The DK-16 digital keypad system provides medium/high security control of electric locks in a one- or two-door application where both doors have the same control needs.

The tamper-resistant keypad provides true ten-key operation for use and programming. Encased in a separate enclosure for secure installation in a protected area, the controller offers REX input and relay output for lock control, alarm shunt or other interfaces.

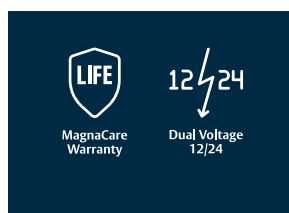

Features

Standard Features

- 12-key keypad with engraved and paint filled numbers
- Stainless steel plate
- Red, green and yellow LEDs for status and programming feedback
- Audible keystroke echo
- True 10-key operation (keys are not paired)
- 59 users with multiple entry codes
- User code and hard code disable feature
- Passage mode and Lockout mode
- Request to exit (REX) input
- 16 ft. [4.8m], 12 conductor, 22 gauge keypad cable
- US32D/630 Satin Stainless Steel finish
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Accessories

- **WCC** Weather-resistant cover
- **WBB** Weather-resistant back box
- Keypad available as system or separately

Specifications

Electrical

- 12 VAC/VDC: 7 mA at rest; 160 mA active
- 24 VAC/VDC: 20 mA at rest; 190 mA active

DK-26 Digital Keypad System

Digital control system for narrow stile outdoor applications

The DK-26 digital keypad system provides medium/high security control of electric locks in one- or two-door applications where doors have the same control needs.

The fully weatherproof, rugged stainless steel keypad can be mounted in most outdoor environments. Encased in a separate enclosure for secure installation, the full-featured, easy-to-program, DK-26 is ideal for narrow stile applications.

Features

Standard Features

- Cast stainless steel with 11 EPDM rubber keys
- Weatherproof and vandal resistant
- Mounts on a narrow mullion
- Audible keystroke echo
- True 10-key operation (keys are not paired)
- 59 users with multiple entry codes
- User code and hard code disable feature
- Passage Mode and Lockout Mode
- Request to exit (REX) input

R100 Aperio® Wireless Card Reader

*Surface mounted,
no drilling required*

The R100 surface mounted wireless card reader offers a cost effective, aesthetically pleasing way to extend access control to glass, metal or stone surfaces without the need for cutting or drilling.

A retrofit solution capable of being installed in minutes that compliments virtually any ASSA ABLOY electrified locking device. Provides flexible, robust retrofit options for entryways unlike any the industry has seen before.

Features

Standard Features

- For use on glass or metal surfaces
- 2.4 GHz Aperio wireless technology
- Supports HID multiCLASS SE® card technologies
- Supports NFC & BLE mobile credentials
- Integrates with existing access control systems and ID badges
- Audit trail limited by EAC system
- LEDs indicate valid/invalid entries; Red/Amber or Green/Amber
- Black finish
- SecuriCare three-year, no-fault, no questions asked warranty

Accessories

- **R100-DCA** R100 adhesive Aluminum dress cover plate
- **EXT-10-ANT** Aperio® Hub External Antenna (Omni-directional)

NOTE: The R100 card reader is available as either a pre-paired reader and hub kit (no certification required) or as a field configurable component (requires Aperio® Certified Integrator certification). Pre-paired kits support limited features, field configured devices are required in order to support all options. Visit IntelligentOpenings.com to learn more.

Push Buttons & Egress Devices

XMS Exit Motion Sensor

Versatile motion detection for hands-free exit request

The XMS passive infrared (PIR) motion sensor request to exit (REX) device reliably detects motion near a door and releases its lock.

Versatile mounting options and an easily adjustable infrared beam pattern provide optimal coverage of the egress area for smooth, hands-free lock release and exit.

SAFETY NOTE: Securiton recommends that an emergency exit button, such as the EEB, be used in conjunction with the XMS to meet applicable building codes and specific life safety issues.

Features

Standard Features

- Passive infrared (PIR) request to exit (REX) device
- Automatically and reliably cuts power to the lock with no human intervention
- REX output
- Easily adjustable beam pattern
- Adjustable time relock
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

EEB Emergency Exit Button

Redundant backup ensures safe egress

Install the EEB Emergency Exit Button next to the door to provide additional safety and redundancy as required by code when using a motion detector for a request to exit device.

NOTE: Securitron's UL294 certification indicates that when the EEB is used with the XMS Motion Sensor, it meets the NFPA Life Safety Code 101 requirements for exit of access-controlled egress doors.

Features

Standard Features

- Backup device in case of exit sensor failure per BOCA, NFPA, IBC, and VBC code
- Momentarily pressing the button releases the door for 30-seconds
- Re-triggerable for added 30-second release
- Interchangeable green and red lenses included standard
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- Single gang
- Narrow stile
- EEB2 includes standard lenses plus blue ADA lens
- Illumination kits

MK Mortise Keyswitch

Turns standard mortise cylinder into full featured keyswitch

The MK Mortise Keyswitch supports electric lock control, alarm panel arming, reset and override when paired with any mortise cylinder 1-1/8" to 1-1/2".

Features

Standard Features

- 12 or 24 VDC
- Bi-color LED
- Backing bracket permits integration with any 1-1/4" [32mm] or 1-1/8" [28mm] mortise cylinder (not included)
- Support for 1-1/2" [38mm] cylinder using spacer ring and backset
- Additional switch position on backing bracket allows another switch to be activated by turning the key in the opposite direction
- 5A rated plunger switch
- Includes anti-tamper screws
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- Momentary or Alternate
- SPDT or DPDT relay
- Narrow Stile, Single- or Double-Gang
- Local annunciation via Piezo sounder
- Additional switch add on
- 1-1/8" [28.5mm] Key Cylinder, 26D Finish, SC keyway

Single Pole – Single Throw (SPST)

Switches that have one input and one output (NO or NC) and turn on or off in response to the switch action

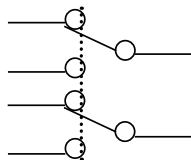

Single Pole – Double Throw (SPDT)

Switches with one input and two outputs. When the switch operation occurs, the connection shifts from output A to output B

Double Pole – Double Throw (DPDT)

Two SPDT switches that operate in tandem using one switch operation so that each connection shifts simultaneously from its primary output to its secondary output

Double Pole – Single Throw (DPST)

Two SPST switches that operate in tandem using one switch operation so that two outputs turn on or off simultaneously in reaction to the switch operation

Momentary Switch

A momentary switch changes state during activation and reverts to its original state upon deactivation. A doorbell is a common example of a momentary switch. A timer can be used to extend the effect of the switch operation for a specific amount of time.

Alternate Switch

An alternate switch changes state upon activation and does not change back until reactivated. A light switch is a common example of an alternate switch. Alternate switches are also called maintained or latching switches

Normally Open Contacts (NO)

A normally open contact provides an open circuit where no current is flowing in its usual state.

Wired in parallel for fail secure type electric locks (i.e. electric strike). Activating any switch will apply power, releasing the lock.

Normally Closed Contacts (NC)

A normally closed contact provides a closed circuit where current is flowing in its usual state.

Wired in Series for fail safe type electric locks (i.e. Magnalocks). Activating any switch will break power, releasing the lock.

WSS Wave Sense® Switch

No-touch switch for hands-free activation

A new class of motion sensing technology for hands-free, contactless switch activation.

Use for request to exit (REX), activation or on/off switching to trigger a variety of access control devices in place of a push plate or push button.

Need an Outdoor Solution?

WCC

WBB

WCC and WBB allow the Wave Sense Switch to be mounted in outdoor locations not directly exposed to rain or snow

Features

Standard Features

- Active microwave motion sensing using Doppler radar that is more reliable than infrared sensors
- Adjustable sensing zone from 4" to 24" (102mm to 610mm) helps screen out incidental traffic
- FCC certified for use in general and medical environments
- Touchless activation for hands-free operation, reduces transmission of germs
- Pulse mode to initiate action or toggle mode to provide on/off switch
- Mounting ring included or install in standard plastic or metal gang box
- Water-resistant foam gasket included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- Weather-resistant cover
- Weather-resistant backbox
- Offered in a single-gang or double-gang model

Specifications

Certifications

- Electromagnetic compatibility to 2004/108/EC
- FCC: G9B-MS08 and IC: 4680A-MS08

Dimensions

- Single gang faceplate 4-1/2" x 2-3/4" [114mm x 70mm]
- Double gang faceplate 4-1/2" x 4-1/2" [114mm x 114mm]

Electrical

- Self-sensing 12 or 24 V DC or AC input ($\pm 10\%$)

Maximum Power

Consumption

- Less than 1.5 W (125 mA at 12 VDC) 1 A SPDT contact can be operated in toggle or pulse mode
- Pulse output: 0.5 seconds

Environmental

- Operating Temperature: -4° to 131° F [-20° to 55° C]
- Indoor use

Shipping Weight

MagnaCare[®] Lifetime Replacement Warranty

The Industry's Best Warranty

- **Lifetime** — We guarantee our products, and since we've been making Magnalocks for over 35 years that's a promise you can trust
- **No-Fault** — For any reason, including but not limited to installation error, vandalism or act of God
- **Tomorrow** — Replacement product is shipped at Securitron's expense, next day air if needed
- **Hassle Free** — No product registration is required

At Securitron, we pay special attention to the needs of our customers. Our 1.800.MAGLOCK sales and service support line puts you in touch with our knowledgeable and friendly team to assist you with the smallest detail, or the most difficult application, including free wiring diagrams. In 1999, introduced the first "no strings attached" warranty program called MagnaCare, because we believe quality products and quality service should be the expectation, not the exception.

Select products are covered under Securitron's other warranty programs. Full details are available at securitron.com.

DSB Dual Sense® Bar

Dependable touch and mechanical release for superior safety and redundancy

The dependable DSB Dual Sense Bar is the most reliable exit device available for electronically locked, non-fire-rated doors.

Its unique design delivers superior fault tolerance with two independent, redundant switch circuits for releasing the lock. The DSB can be installed on all types of interior metal, aluminum or wood doors. Meets "no special tools or knowledge" criteria required by code.

Features

Standard Features

- Redundant switches
- Release triggered by either 1/8" [3mm] mechanical movement or reliable touch sense technology
- Resistant to interference from radio frequency or electromagnetic frequency and external impact/ bounce attempts
- All metal construction
- Can be field cut to fit non-standard door widths
- 16 ft. [4.8m] 22 AWG 6 conductor cable and armored door cord included
- Resists electrostatic discharge up to 27,000 volts
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **36** 36" [914mm] Length
- **42** 42" [1,067mm] Length
- **48** 48" [1,219mm] Length
- **EL** ElectroLynx® ready
- **I** Illuminated via fiber optics
- Through-bolt kit for doors 1-3/4" to 2-1/4" [44.5mm to 57mm] thick
- Cover plates per DSB

Specifications

TSB Touch Sense® Bar

*Touch-triggered release
for reliable egress*

The TSB Touch Sense Bar provides touch-triggered release of electronically locked, non-fire-rated doors.

Touching the bar, even through light gloves or clothing, triggers an electronic sensor that releases the lock. For indoor use only, the TSB installs easily on all types of metal, aluminum or wood frame doors. Meets "no special tools or knowledge" criteria in code requirements.

Features

Standard Features

- Can be field cut to accommodate non-standard openings up to 48" [1219mm]
- Activates a 2A DPST rated relay when touched (no mechanical movement) which will allow free egress, or initiates the delay on an exit delay timer
- Backup push button included
- 16 ft. [4.8m] 22 AWG 6 conductor cable and armored door cord included
- Available ElectroLynx® ready
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **36** 36" [914mm] Length
- **42** 42" [1,067mm] Length
- **48** 48" [1,219mm] Length
- **EL** ElectroLynx® connectors
- **D** Dummy bar with no release function
- Through-bolt kit for doors up to 2-1/4" [57mm] thick (TSB-TDM)
- Cover plates for retrofit of competitor products (TCP-BK)
- Trailing edge timer

EMB Electromechanical Bar

Mechanical activation for electronic lock release in a reliable, durable exit bar

Use the Electromechanical Bar (EMB) on electronically locked, non-fire-rated doors or as an initiate device for a delayed egress timer.

Pressing the bar activates internal mechanical switches that release the lock. Optional waterproof switches are available, which allow the EMB to function in protected outdoor applications. Meets "no special tools or knowledge" criteria for code requirements.

Features

Standard Features

- Low profile design requires only 1/4" [6.35mm] movement for activation
- Can be field cut to accommodate non-standard openings up to 48" [1219mm]
- Uses same mounting pattern as the TSB and DSB
- Direct retrofit for some competitor footprints
- Mechanical action activates a DPDT relay
- 5A rated output to allow free egress or initiate an exit delay timer
- Redundant switches ensure reliable, fault-tolerant operation
- All metal construction
- 16 ft. [4.8m] 22 AWG 6 conductor cable and armored door cord included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **36** 36" [914mm] Length
- **42** 42" [1,067mm] Length
- **48** 48" [1,219mm] Length
- **W** Weather-resistant upgrade

TSH Touch Sense® Handle

Compact push or pull egress alternative for electronic lock release

Sized to conceal existing mounting holes, the TSH Touch Sense Handle replaces standard pulls on aluminum doors to allow electronic lock release for egress.

With flexible options, it works equally well on in-swing doors or as a push-open device for out-swing doors, offering a clean look on aluminum frame glass doors.

Features

Standard Features

- For use on any push, pull or swing-through door
- Activates electronic release via 2 A DPST rated relay when touched to allow free egress
- Backup push button
- 16 ft. [4.8 m] 22 AWG 6 conductor cable and armored door cord included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Power

BPS 12/24-1 Dual Voltage Linear Power Supply

Linear power for sensitive electronics

The BPS series of power supplies delivers linear technology recommended by most manufacturers of sensitive electronic access control and security components.

Safe for use with readers, electric strikes, and maglocks, these units interface to fire alarm systems and provide battery backup. The BPS-12/24-1 is UL Class 2 listed.

Features

Standard Features

- Dual voltage, field selectable 12 or 24 VDC via clearly marked toggle switch
- Supplies 1 full amp continuous current output, even while charging back-up batteries
- Linear regulated power supply provides the cleanest power available
- UL Class 2 power limited output
- SPDT AC monitoring output allows for remote monitoring of the power supply's 110 VAC input
- External LED indicator (AC and DC) easily determines power status
- UL Listed, low-current fire alarm disconnect requires only a minimum size fire alarm relay and wire gauge
- Polyswitch 2 A breaker allows for large short duration inrush current if batteries are installed (approx. 20 A for 1 second)
- Line voltage and DC fuses
- Sealed lead acid or gel battery charging capability (battery sold separately)
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

PART NUMBER	DESCRIPTION
BPS-12/24-1	Dual Voltage Power Supply—12/24 VDC, 1 A

BPS Linear Power Supply

12 VDC or 24 VDC linear output for high performance

The BPS series single voltage power supplies deliver linear technology recommended by most manufacturers of sensitive electronic access control and security components.

Safe for use with readers, electric strikes, and maglocks, these units interface to fire alarm systems and provide battery backup. The BPS power supplies provide 12 VDC or 24 VDC output with a variety of amp sizes that support small or large power needs.

Features

Standard Features

- 1, 4 or 8 outputs protected with polyswitch (PTC) 2 A circuit breakers
- LEDs provide an easy-to-read voltage indicator for output zone status (voltage, no voltage)
- Slide switches connect or disconnect load from power (excludes 1 A)
- Battery charging and backup capability (battery sold separately)
- Rugged steel enclosure
- Fire alarm relay connection for release of all devices upon fire alarm activation
- Clean linear power for flawless operation with all sensitive active electronic components
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

BPSM Self-Monitoring Power Supply

*Clean linear output with
built-in supervision*

The BPSM self-monitoring power supply delivers all the benefits of linear technology with battery supervision for real-time power status information.

This unit is the right choice when interfacing to fire alarm systems with auxiliary relays that can't handle the full current potential of the power supply, or when monitoring power systems for AC failure or DC battery failure. BPSM status LED indicators and status output terminals offer advanced protection.

Features

Standard Features

- Polyswitch (PTC) 2 A output breakers protect 8 outputs
- Easy-to-use slide switches connect or disconnect load from power
- LED indicators (AC and DC) provide easy-to-read visual status of power supply
- Emergency low-current, fire-release terminals
- AC status output terminals provide real time status information, SPDT, 3 A
- Battery status output terminals supply real time information, Form "C" SPDT, 3 A
- Line voltage and DC fuses
- Sealed lead acid or gel battery charging capability (battery sold separately)
- Automatic battery disconnect to prevents deep discharge
- Clean linear power delivers flawless operation with all sensitive active electronic components
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **Output Current**
 - 6 A at 12 VDC
 - 9 A at 12 VDC
 - 9 A at 12 VDC
 - 4 A at 24 VDC
 - 6 A at 24 VDC

PSM Power Supply Monitor

Add-on monitoring for BPS

The PSM Series works with most BPS power supplies when real-time power and battery status information is critical.

Compatible with all BPS supplies of two amps or more, the PSM acts as a power supply alarm system, monitoring all key functions and reporting any trouble. This unit constantly monitors its output voltage to ensure it remains within tight limits for proper float charging of the battery pack.

Features

Standard Features

- Monitors and reports the status of the power supply system's output voltage
- Load tests and reports on the battery pack every 8 hours
- Audio and visual alarm
- Monitors/tests DC output of power supply load
- Available for both 12V and 24 VDC systems
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Compatible Power Supplies

- **PSM-12:** 3 A or greater at 12 VDC
 - BPS-12-3
 - BPS-12-45
 - BPS-12-6
 - BPS-12-9

FAR

Fire Alarm Reset

Manual door lock power reset for code compliance

Provides functionality beyond a standard fire trigger relay when local code requires manual reset after a fire alarm.

This self-contained unit interfaces to a fire alarm unit to cut power to devices downstream of the power supply in an alarm situation. The power stays off until the FAR's Keyswitch is manually reset. This feature is required by some jurisdictions to prevent the unintentional re-arming of doors until the fire alarm is reset and power is restored to the access control system during an ongoing emergency.

FAR shown with BPS and Fire Alarm

Features

Standard Features

- Key switch for manual reset capability where required by code
- Enables manual cut-off of power for testing and other emergency situations
- Simple bi-color, LED status indicator for easy-to-read power status
- Easy-to-mount metal enclosure equipped with security cam lock
- CFAR version available to meet Canadian fire release requirements
- Select 12 VDC unit or 24 VDC unit to match power supply output voltage
- 5A-rated SPDT plunger switches
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

AQL Series

Single, dual & multi-voltage
ready intelligent power system

An out-of-the-box solution that offers unique performance and value.

The AQL Series of switching power supplies is an out-of-the-box solution that makes installation easier. It is feature rich, network management ready and available in 12 or 24 VDC single, dual and multi-voltage units.

Features

Standard Features

- Low battery cutoff protects batteries from deep discharge
- Dedicated fast charger prolongs battery life
- Enhanced surge immunity for input/output protection
- LockSafe™ keeps locks cooler by providing a separate, dedicated battery charging circuit
- OutSmart™ technology dual-color LED notification which prevents incorrect voltage application to locking devices [Green: 12 V | Blue: 24 V]
- Auxiliary output rated 1.4 A continuous
- Mix and match UL Listing
- Instant auto-switch to battery on AC loss
- Multi-voltage with B100
- Integrated Fire Alarm Interface (FAI) allows main output shutdown or disconnect on a per output basis when using an R8 output module
- Network ready with optional Netlink™ module
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- Enhanced Network Management
 - AC line voltage monitoring
 - Remote battery monitoring and testing
 - 1000 event data recording
 - Email fault reporting

R8 Power Relay Module

Works with AQL intelligent power systems

The R8 contains multiple relayed outputs for direct lock control and additional accessory power distribution.

The R8 module provides eight access control inputs capable of NO dry contact or open collector activation. It also includes eight relay outputs, programmable for dry or wet contact or powered for fail-safe or fail-secure locking devices.

Features

Standard Features

- Dual Buss architecture for field selectable Buss 1 or Buss 2 output
- 8 outputs for direct lock control and additional accessory power distribution
- Multi-voltage when used with B100
- Configurable for fail-safe, fail-secure and dry contact operation modes
- Fire alarm fault detection and reporting to the AQL series power supply
- Visual indicators
 - Relay activation per output – Red LED
 - Voltage level – Bi-color LED voltage indicators
- Multiple modules can be daisy chained to add additional outputs
- Snap-in style standoffs with fast-on connect cables for easy field installation
- Fiberglass PCB and high efficiency circuit generates less heat leading to a longer service life and lower MTBF
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Dimensions

- 6" x 4" x 2.5"
[153.4mm x 101.6mm x 63.5mm]

Electrical

- 8 lock outputs
- 8 access control inputs
- Input voltage 12 and 24 VDC
- Input current 20 Amps max
- Output voltage (jumper select): 12 or 24 VDC
- Output current:
Fused at 3 A per output
- Relay contact rating: 12 A at 28 V
- Fire alarm selection per output
- Supports follow on modules

Environmental

- Operating Temperature:
32° to 122° F [0° to 50° C]

Shipping Weight

- 1 lbs

D8/D8P Power Distribution Module

Works with AQL intelligent power systems

Provides 8 auxiliary power outputs, each one individually protected by a fuse (D8) or solid state circuit breaker (D8P).

The D8/D8P Distribution Module offers programmable outputs to either of the two voltages available when used in an AQL dual voltage power system or to the continuous output of the power supply when used in a single voltage system.

How to Order

MODEL SERIES	FUSE TYPE
D8	P
D8 8 Continuous outputs	(blank) 3 A ATM Fuse P 2.5 A polyswitch fuse

Features

Standard Features

- Dual Buss architecture for field selectable Buss 1 or Buss 2 output
- 8 outputs for auxiliary power distribution or direct lock control and additional accessory power distribution modules
- Multi-voltage when used with B100
- Output Protection
 - D8 ATM style fuse: 3 A/per output
 - D8P Solid state circuit breaker: 2.5 A/per output
- DC Out visual indicators (Dual color LED per output – Green: 12 V | Blue: 24 V)
- Multiple modules can be daisy chained to add additional outputs
- Snap-in style mounting standoffs with fast-on connect cables for easy field installation
- Fiberglass PCB and high efficiency circuit generates less heat leading to a longer service life and lower MTBF
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

- 8 continuous outputs
- 12 and/or 24 VDC input voltage
- 12/24 VDC output voltage (jumper select)
- Output Current D8: Fused a 3 A per output
- Output Current D8P: Class II at 2.5 A per output

Shipping Weight

- .25 lbs

Netlink™ Power Monitoring Module

Works with AQL intelligent power systems

The Netlink is a four data port network communication interface for remote power monitoring, reporting and control.

Netlink (NL4) is a four data port network module that communicates and controls power status over a local or wide area network. The NL4 provides four SPI ports for connection to AQL devices that enables monitoring and control of the power system. Typical data gathered and reported includes operational fault status, power supply output voltage, battery charging voltage, battery charging current, and fire alarm input status.

Features

Standard Features

- Monitoring and reporting for health and status of host power supply and battery set
- 1000 event buffer
- Time/Date stamp log reports last 1000 events
- Auto-schedule, test, and report battery standby time
- Remote supervision of battery's state of charge
- Monitoring internal cabinet temperature
- Monitoring external room temperature with "over temp" alert
- Remote power cycling control of external equipment
- Receive system monitoring email notifications for
 - AC and system fault conditions
 - Aging or drained battery, battery not meeting standby specification
 - Fire Alarm Interface (FAI) activation
 - External room temperature outside preset limit
 - External Event activation
- SNMP set and trap notification on version 1, 2, or 3
- Encrypted password, user and certificate logging
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

B100 Secondary Voltage Module

Works with AQL intelligent power systems

The B100 provides a means to easily and economically add an additional voltage to any AQL system.

The B100 terminal block output is Class 2 power limited and jumper selectable for either a fixed 12 VDC or an adjustable range between 5-18 VDC at 4 amps maximum current. Multiple B100's can be added to a system for virtually unlimited voltage combinations.

Primary power for the B100 is derived from a AQL power supply. The B100 steps the AQL voltage down to the user defined range (typically 12 VDC).

Features

Standard Features

- Provides the odd voltage required to power modems, routers and other IT or similar devices (ie., 5 V, 9 V, 15 V etc)
- Snap-in style mounting standoffs with fast-on connect cables for easy field installation
- Eliminates need for a 12 V battery set in dual voltage access power systems
- Small size allows for dual voltage in a smaller enclosure
- Jumper selectable output voltage
 - 12 VDC fixed
 - 5 to 18 VDC user adjustable
- 4 Amps current at any selected voltage
- Overload protection
- Short circuit protection
- Over temperature protection
- Fault report to host power supply on abnormal operation, voltage loss and overcurrent
- Visual indicators for DC in/DC out and fault
- Input and output LEDs indicate voltage by color [Green: <15 V | Blue: >15 V]
- Adds an economical secondary 12 V output to any 24 VDC system
- Fiberglass PCB and high efficiency circuit generates less heat leading to a longer service life and lower MTBF
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

AQD & AQS Series

Dual & single voltage switching power supplies

A full line of highly efficient power supplies that protect devices from over voltage.

AQD Series dual voltage and AQS Series single voltage switching power supplies are both supervised units with a battery charger designed to power magnetic locks, electric strikes, card readers, sensors, access control boards and other devices in access control systems. The AQD and AQS Series can also be used to power DC cameras and other DC locking equipment. These units provide field selectable 12 or 24 VDC with up to 16 independently controlled power limited outputs.

Features

Standard Features

- AQD Series is dual voltage 12 or 24 VDC field selectable continuous output
- AQS Series is single fixed voltage 12 or 24 VDC continuous output
- Tolerates brownout or overvoltage input $\pm 15\%$ of nominal voltage
- Thermal shutdown protection with auto restart
- Circuit breaker protects against overcurrent and reverse battery faults (*batteries sold separately*)
- Dedicated battery charging circuit prevents over voltage on locking devices (*except for AQD1*)
- Expandable up to 16 outputs in the standard enclosure
- Outputs are Class 2 limited when used with PTC Polyswitch output distribution boards
- Available with a single relay fire trigger or individually fire trigger relayed outputs
- Low noise design provides better than linear performance
- Mix and match configuration allows for UL compliance even when used in other UL Listed enclosures
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Dimensions

- Enclosure: 14" x 14" x 4-3/4"
[356mm L x 356mm W x 121mm D]

Specifications

Certifications

- UL 294 Listed
- UL 603 Listed
- ULC-S318 Listed
- ULC-S533 Listed
- RoHS Compliant
- REACH Compliant

Electrical AQD Series

- AQD Series 12 VDC or 24 VDC field selectable output
- 115 or 230 VAC input*
- Supports up to two (2) sealed gel, AGM or wet lead acid batteries
- Up to 90% efficiency
- Low voltage ripple design as low as 240 mV p-p

Electrical AQS Series

- AQS Series 12 VDC or 24 VDC fixed output
- 115 or 230 VAC input
- Supports up to two (2) sealed gel, AGM or wet lead acid batteries

Environmental

- Operating Temperature: -4° to 122° F [-20° to 50° C]

Shipping Weight

- 12.7 lbs [5.76 kg]

*AQD1 available in 115 VAC only

Step by Step Configuration

*NOTE: Fuse type and size must be the same for both distribution boards for standard ordering. For custom configurations, please contact the factory at 800.626.7590.

1

Select One Power Supply with Enclosure

- AQD1
- AQD2
- AQD4
- AQD6
- AQS1210
- AQS2410
- AQS1216

2

Select Up to Two Power Distribution Boards*

- PDB-1R
- PDB-4C
- PDB-4F
- PDB-8C
- PDB-8F
- PDB-8C1R
- PDB-8F1R
- PDB-8C8R
- PDB-8F8R

3

Add Distribution Board Part Numbers

8F1R2 + 8F8R2 = 16F9R2
 *Include fuse size on end:
 2 A Fuse = 16F9R2

4

Combine to Generate Final Part Number

Example: AQD6-16F9R2

AQD6 + 8F8R2 + 8F1R2 = **AQD6-16F9R2**

Models

MODEL	AMPERAGE	RATED VOLTAGE	INPUT VOLTAGE	TYPICAL VOLTAGE	CLASS 2 OUTPUTS	REPLACES
AQD1	1	12 or 24 VDC	115	13.7 / 27.4	Yes	AQD3
AQD2	2	12 or 24 VDC	115/230	12.5 / 25.0	Yes	AQD3
AQD4	4	12 or 24 VDC	115/230	12.5 / 25.0	Yes	AQD5
AQD6	6	12 or 24 VDC	115/230	12.5 / 25.0	Available*	AQD6
AQS1210	10	12	115/230	12.5 / 25.0	Available*	AQU128
AQS2410	10	24	115/230	12.5 / 25.0	Available*	AQM20
AQS1216	16	12	115/230	12.5 / 25.0	Available*	AQM20

* Outputs are class 2 limited when used with 4 or 8 output PTC distribution boards

Power Distribution Board with Access Control & Fire Trigger

Works with AQD & AQS power supplies

Power plus interfaces for sophisticated access control.

The PDB-8F8R and PDB-8C8R split a power supply main output into eight fused- or PTC circuit breaker-protected outputs. Each output is individually configurable to respond and react to access control relay inputs and/or fire trigger.

Features

Standard Features

- Eight power outputs
- Eight individually configurable relays with status LEDs
- End-of-Line resistor master trigger for Fire System interface
- LED indicator for trigger status
- Removable terminal blocks for easy connection
- Each output individually configurable for:
 - Fire trigger enabled or disabled
 - Normally Open or Normally Closed
 - Continuous output
- 8F8R can provide dry contacts by removing fuses
- Relay inputs individually configurable for:
 - Low current open collector
 - Normally Closed switch
 - Normally Open switch
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty
- 8C8R provides class 2 outputs

Power Distribution Board with Fire Trigger

Works with AQD & AQS power supplies

Power distribution with configurable, supervised fire relay.

The PDB-8C1R and PDB-8F1R split a main DC power source into eight Class 2 power limited outputs. Each output is individually configurable for “Normally On” or “Normally Off” and can change state in response to an alarm condition from either or both supervised triggers, or can remain in its native state.

Features

Standard Features

- 8 Class 2 power limited outputs with PTC circuit breakers
- Individual LED output status indicators
- LED main input power indicator
- Removable terminal blocks for easy connection
- Two supervised triggers
 - End-of-line resistor
 - Optically isolated trigger by voltage or reverse polarity
- LEDs and form C contacts indicate trigger status
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty
- Trouble and Fire alarm states supervision

Power Distribution Board

Works with AQD & AQS power supplies

Creates multiple outputs for separate circuits.

Power Distribution Boards split the primary AC or DC output from a power supply into multiple outputs of the same voltage type to separate equipment onto individual circuits.

Features

Standard Features

- Splits main board output into multiple outputs
- Each output has a status LED indicator
- Main input has a status LED indicator
- 12 V or 24 V output (based on power supply output)
- Accepts AC or DC input/ provides same output
- PDB-4 has an on/off power switch
- PDB-8 has a main power indicator that indicates AC, DC or reverse DC input
- Individually fused with 1 Amp or 2 Amp options available
- PTC variants provide class 2 power limited outputs
- Separate fuse for main input surge protection—standard automotive ATO sizes
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- **PDB-4C, PDB-8C**
 - PTC circuit breakers rated holding current at 130° F
 - Accepts AC or DC input up to 32 V
 - Outputs rated Class 2 power limited
- **PDB-4F, PDB-8F**
 - Fuses for individual outputs are standard 3 AGC
 - Accepts AC or DC input

Certifications

- UL 294 Listed
- UL 603 Listed
- ULC-S318 Listed
- ULC-S533 Listed

Dimensions

PDB	8	F Glass fuse	1 A
		C PTC	2 A

Fire Alarm Interface

Works with AQD & AQS power supplies

Fire relay triggers power transfer in an alarm situation.

The PDB-1R uses an end-of-line resistor to trigger a form C contact in response to a fire system alarm condition. In response to the trigger, the unit transfers power from the “Normally On” output to the “Normally Off” output. Additional triggered reactions include status feedback to fire control or annunciation systems, ground fault trigger and input trigger that latches until reset.

Features

Standard Features

- Individual LED indicators show which output is powered
- Form C contact indicates trigger status
- Latching or non-latching mode
- Can provide ground supervision via jumper configuration
- Output triggers include:
 - Normally Open or Normally Closed with supervised End-of-Line resistor
 - Normally Closed override switch trigger input
 - Normally Closed Auxiliary switch trigger input
 - Ground fault detection
 - Trigger status reporting
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

PART NUMBER	DESCRIPTION
PDB-1R	Fire Trigger/Relay Interface Board

EcoPower® Power Supply

*Efficient 0.5A power supply
for low-power locks*

EcoPower power supply is designed to work with ultra-low-power electrified access control devices.

This small, aesthetic power supply reduces standby power consumption to only 8.5mW, a 99% energy savings compared to switching power supplies. When paired with EcoFlex® and EcoTrim from SARGENT® and Corbin Russwin®, EcoPower reduces total door power consumption 99%, from up to 20 W to 0.3 W or less. EcoPower is the most efficient, fully featured power supply available today.

Features

Standard Features

- Extremely low power consumption, only 8.5 mW standby power consumption with a 115 V input
- Included battery provides 24+ hours of backup
- Universal input voltage capabilities (100-240 VAC)
- Multiple mounting options
 - Surface mounted
 - Recessed into drywall
 - Use either the factory box or an existing UL Listed double gang junction box
- Sustainability documentation
- Longer wire runs of thinner gauge wire provides additional cost savings
- Fire alarm input dry contact (NO or NC)
- Access control input dry contact (NO or NC)
- Supports fail secure and fail safe lock configurations
- LED troubleshooting
- Built in battery end-of-life notification system
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

BPSS Boxed Power Supply Solar

Clean power meets green power

The BPSS is the only out-of-the-box solution specifically designed for remote electric lock control where conventional power is impractical or not available.

This complete solar power system powers most single-point access control device and fail secure lock (intermittent duty only) by producing sustainable solar and battery operated power. Select the BPSS-10 or BPSS-20 (10 or 20 charging watts respectively), based on solar activity in the area/region where the device or product will be installed.

Features

Standard Features

- Works with most fail secure electric locks
- Works with most keypads or card readers
- Operates outdoors
- 100% solid state solar controller comes with anodized aluminum case and marine-rated terminals
- Low voltage battery monitor protects batteries from deep discharge
- High-efficiency photovoltaic panels use silicon nitride multicrystalline cells
- Green charging LED indicator
- Comes with mounting brackets for enclosure and solar panel
- Approved for use in hazardous locations—Class 1, Division 2, Groups A, B, C, D
- SecuriCare 3-year, no-fault, no questions asked warranty

Optional Features

- Mounting brackets available for fence/pole mounting (to 3" [76.2mm] diameter)
- Wind kit available for high wind areas
- Available in 10 W and 20 W versions

SecuriCare
Warranty

AQE Single Port Injector

Power over Ethernet

Gigabit data and power all-in-one.

brings power and data together with our latest innovation. The AQE15 and AQE30 are single port Power over Ethernet (PoE) MidSpan Injectors designed for access control and security applications. These modules enable the powering of PoE devices from a non-PoE source. AQE Series Injectors power PoE cameras, access control door controllers and other PoE equipment.

Features

Standard Features

- Allows powering of PoE devices from a non-PoE source
- Operates from low voltage 24 VAC or 24 VDC input
- Reset feature allows PoE shutdown
- Visual diagnostics via on board LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Certifications

AQE Single Port Extractor

Power over Ethernet

Gigabit data and power all-in-one.

The AQE30E is a single port Power over Ethernet (PoE) MidSpan Extractor designed for access control and security applications. This module provides 12 VDC up to a maximum of 25W output power to a non-PoE device from a PoE source. The AQE30E Extractor is used to power DC, IP and PTZ cameras, access control, door controllers and other similar equipment.

The AQE Series Extractor provides RJ45 connectors for data input and output and two terminal strips for the DC output and power level selection.

Features

Standard Features

- Allows powering of non-PoE devices from a PoE source
- 12 VDC output power derived from PoE source
- Selectable for 13 W or 25 W output
- Visual diagnostics by on-board LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Certifications

- UL 294B Listed

AQE Rack Mount Injector

Power over Ethernet

Centralize your PoE with remote manageability.

The AQE250R and AQE500R are 16 port, Power over Ethernet (PoE) injectors that can be monitored and managed online. This series provides power and data to PoE devices such as PTZ cameras, video, access control, door locks and other PoE devices.

These rack mounted power supplies feature (16) ports at up to 32 W per port with 10/100/1000 Base-T Gigabyte support. They offer remote power monitoring and the ability to remotely shut down individual ports or all ports simultaneously. They also include a 48V battery charger for cost effective back-up power.

Features

Standard Features

- Up to 32 W/port IEEE.802.3.at, up to maximum output of 256 W or 540 W
- Extended temperature range operation up to 122° F [50° C]
- Remote managed system with browser interface
- Remote PoE shutdown per port or all ports simultaneously
- Identifies and protects non-PoE equipment
- Port status LED for easy diagnostics
- Overtemperature, overvoltage, overcurrent and short circuit protection
- Illuminated master power switch with circuit breaker
- 1 U 19" [482.5mm] rack mount or wall mount (with bracket included)
- Accepts AC or DC input power
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

IPS Integrated Power Solutions

Power over Ethernet

The IPS Series is a UL listed system designed to provide both operating power and space to deploy Mercury Security access control components.

IPS rack mount enclosures provide mounting for two Mercury devices in an access control system capable of controlling four doors as a standalone or multiple doors when interconnected. The equipment is provided as part of the IPS enclosure. Mercury equipment is provided by the integrator based on the job requirements.

Features

Standard Features

- UL Listed, powered mechanical 2U housing for Mercury Security components
- Compartmentalized four door power architecture for maximum reliability
- Rack drawer mounted on fully extendable slides for simple Mercury installation
- Rack drawer internal space fully accessible with slide extension / Key lockable
- Wire management tie down points with optional "Z" bracket articulating arm
- Dual or Multi-voltage options cover all access functions
- Power distribution options allow either direct or buffered lock control
- Individual output selection for fail safe, fail secure, lock voltage and fire alarm interface
- Automotive fuses for ease of service and replacement
- 120 or 230 VAC user selectable input supports data center electrical systems
- Form C contact transfer for AC Loss or brownout
- Form C contact transfer for abnormal system operation
- Fire Alarm Interface (FAI)
- MagnaCare® lifetime replacement, no fault warranty

Specifications

Input Power

- Input 120/230 VAC 50/60 Hz
- Thermal overload protection
- Short circuit protection

Output Power

- **IPS2R-D758F-01 & IPS2R-D754R-01** 75 Watts: 6 amps at 12 VDC or 3 amps at 24 VDC (factory default setting is 12 VDC)
- **IPS2R-M754R-01** 75 Watts: 2 amps at 12 VDC and 2 amps at 24 VDC (factory set to 24 VDC and 12 VDC) (allows 1 A per Mercury board, 0.5 A per lock. If Mercury board draws less, lock power is more)

Internal Power Distribution

- Optional four or eight outputs class II power limited at 2.5 A each
- Individually selectable outputs on dual voltage systems

Supervision

- AC input, DC1, and DC2 output
- Low battery and battery presence supervision (form C contacts)
- AC fail supervision (form C contacts)
- System Fault, AC Fault, Ground Fault, Reverse Battery

External Indicators

- AC on master on/off switch
- Front panel Mercury Security status
- 4 door status LEDs

Battery Charging

- Maximum charge current 1.0 Amp
Maximum battery capacity 40 Ah
- Independent built-in charger for sealed lead acid or gel type batteries
- Microprocessor dual rate charging of 12 or 24 VDC battery sets
- Automatic switchover to standby battery when AC fails
- Zero voltage drop when switched over to battery backup

Regulatory Compliance

- UL294
- BTU Rating
- 33BTU/Hr

Physical Dimensions

- 2U rack mount: 19"W x 3.5"H x 20.5"D
[482.6mm x 88.9mm x 520.7mm]
- Weight: 24 lbs
- Z bracket wire management articulating arm (*optional*)

Internal Power Distribution

Control Outputs For Locks (M754R Model)

4 access control trip inputs, 4 individually protected lock control outputs, Class 2 power limited at 2.5 A per output, Each input may be programmed to respond to:

- Application of voltage between 9 and 33 VDC
- Removal of voltage between 9 and 33 VDC
- Normally open dry contact transition
- Normally closed dry contact transition

Each output may be programmed for the following modes:

- Voltage output from power supply one
- Voltage output from power supply two
- Fail-safe, fail-secure
- Fire alarm over ride for egress lock control

Visual Indicators

- DC Presence: Green LED per output
- Fault Condition: Yellow fault LED on C4 board
- Gemini Front Panel Red LEDs may be connected to compatible Mercury controller
- Removable terminals: accepts #12 to #24 AWG

Distributed Power to Mercury (D758F Model)

Eight individually protected power sources

- Class 2 power limited at 2.5 A per output Visual Indicators
- DC Presence: Green LED per output
- Removable terminals: accepts #12 to #24 AWG

PSP Medium Filtered DC Plug-In Power Supply

Medium capacity plug-in power supply

PSPs are ideal for powering a wide range of DC devices where power is available via an outlet.

The PSP Plug-in DC Power Supplies are available in 12 volts at 3 A maximum capacity or 24 volts at 1.5 A maximum capacity.

Features

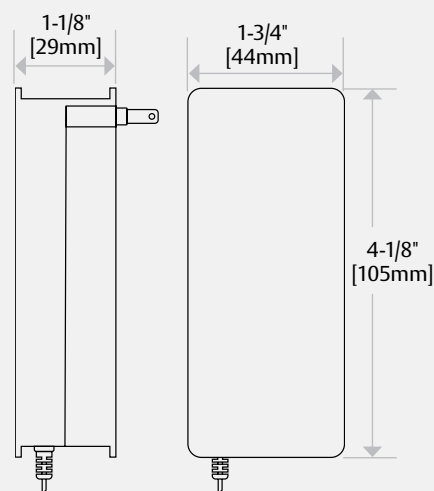

Standard Features

- 36 watts continuous output
- 6 ft. [1.8m] output cable included
- Folding, two-prong AC connector
- Input voltage 100 VAC to 240 VAC
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Certifications

- UL listed

Lead Acid Battery

BR-4 Bridge Rectifier

CCB-8 Control Board

CKL Cabinet Key Lock

Sealed Lead Acid Battery

Lead Acid Batteries provide battery back up when used with linear, switching, or EcoPower power supplies, ensuring continued operation of access control devices when the AC source power is compromised.

- Batteries are not covered under warranty

BR-4 Bridge Rectifier

Converts AC input to full wave rectified DC output with a maximum 4 A output capacity.

- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

CCB-8 Control Board

Eight (8)-output power distribution board splits a BPS primary output into eight (8), Class 2 power-limited outputs protected by 2 A polyswitch breakers.

- Slide switches connect or disconnect load from power
- LEDs indicate power status for each output zone
- Compatible with all BPS models larger than 2 A output
- MagnaCare lifetime replacement, no-fault, no questions asked warranty

CKL Cabinet Key Lock

Fits the standard knockout on all power supply enclosures to protect against tampering and unauthorized access. Includes two (2) keys.

- MagnaCare lifetime replacement, no-fault, no questions asked warranty

Power Transfers

CEPT Concealed Electrical Power Transfer

*Beautifully crafted, compact,
secure power transfer*

The heavy-duty, tamper-resistant Concealed Electrical Power Transfer (CEPT) securely transfers power and data from the hinge side of the frame to electrified hardware on the door.

The unit is discreetly concealed between the frame and door when the door is closed. Available in three multi-wire configurations and four finishes, the CEPT complements any architectural setting.

Features

Standard Features

- Mortises into the edges of the door and frame
- Direct retrofit for competitor products
- Tamper resistant
- All metal construction including back boxes
- 7/8" [22.25mm] knockouts on back boxes accommodate EMF-type fittings
- Tested to 1 million cycles
- Compatible with butt hinges up to 6" [152.4mm] and continuous hinges with cutout
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **CEPT-10** includes 8–22 AWG wires plus 2–18 AWG wires for higher current devices
- **CEPT-C5E** includes CAT5E compatible with 8–24 AWG wires, 1–22 AWG wire, conductor, Molex connectors
- **EL-CEPT** is ElectroLynx® compatible with 12–22 AWG wires, ElectroLynx connectors

SEPT Square-Cut Electrical Power Transfer

*Square tabs, medium length
for flexible power & data transfer*

Concealed, secure conduit for power and data transfer between a frame and door.

This unit is designed with a stamped steel housing and spring steel conduit to protect power and data wires. The square mounting tabs provide easier installation for recessed installation. The SEPT can be used on swing doors with butt hinges, continuous hinges or pivots with less than 3/4" offset.

Square mounting tabs simplify recessed prep on any door

Features

Standard Features

- Heavy duty design
- Installs in the door and frame edges
- Flexible steel shield protects wires – 1/4" [6.3mm] inside diameter
- Works with almost any type of butt hinge or continuous hinge
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **SEPT-10** includes 8–22 AWG wires plus 2–18 AWG wires for higher current devices
- **SEPT-C5E CAT5E** compatible with 9-22 AWG wire stranded conductor, Molex connectors
- **EL-SEPT ElectroLynx®** compatible with 12-22 AWG Wires, ElectroLynx connectors

EPT Electrical Power Transfer

*Concealed, tamper resistant,
flexible power and data transfer*

The EPT Electric Power Transfer provides concealed, secure power and data conduit between a frame and door, transmitting power to electrified locks, exit bars and more.

Its durable stamped steel housing and flexible spring steel conduit make the EPT suitable for most types of swinging doors with butt or continuous hinges or pivot hinges up to 3/4" offset. The EPT-SC accommodates swing-clear hinges and most pivot hinges.

Features

Standard Features

- Installs in the door and frame edges
- Flexible steel shield protects wire bundles up to 5/16" [8mm] thick
- Works with almost any type butt hinge, continuous hinges and some pivot hinges.
- Rounded mounting tabs
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- **EPT** for standard hinges and pivot hinges less than 3/4" [19mm] offset
- **EPTL** for extended length up to 5" center to center
- **EPT-SC** for swing-clear hinges or pivot hinges with larger offset; not for use with center pivot doors
- **EL** Models are Electrolynx® compatible including 12–22 AWG wires, Electrolynx connectors

NOTE: Not every combination is possible.

EH Electric Hinge

Double duty hinge for streamlined power transfer

The EH is an efficient, discreet, concealed solution that provides secure power and data transfer from frame to door when streamlined wiring is needed.

Each hinge features concealed plug connectors that eliminate separate or exposed wiring. Ultimate concealment for tamper-resistance.

Features

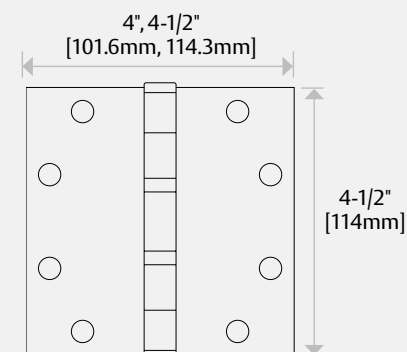

Standard Features

- Transfer power with the highest level of concealment
- Produces the most aesthetically pleasing appearance
- Available in 4-1/2" [114.3mm] or 4" [101.6mm] hinge length
- 500 mA power capability
- 6 conductor, 28 gauge wire

Accessories

TM-2 Time Master II Multi-Function Timer

The TM-2 is a premium, industrial duty, multi-function timer that provides precise timing using stackable increments in seconds or minutes and easy-to-use dip switch settings.

Ideally suited for unusual time sequencing requests, like bank or ATM vaults.

Features

Standard Features

- Industrial quality multi-function timer for delay or time sequencing
- DIP switches select delay times of 1 to 255 seconds or minutes
- Flashing LED provides visual indication of remaining time or alert status
- Triggering can be from a NO or NC switch
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- 12 or 24 VAC or VDC
- 5A DPDT relay output

Environmental

- Operating Temperature: 32° to 149° F [0° to 65° C]

TM-9 Time Mate Timer

The compact TM-9 extends the hold-open request of a momentary push button or keyswitch, enabling single-hand operation of the door or delaying re-arming of alarms.

Features

Standard Features

- Miniature timer extends momentary switches
- Fits in outlet boxes with push buttons or keyswitches
- 3A SPDT relay energizes for 2 to 36 seconds
- Time setting is selected by easy to configure DIP switches
- Applications include releasing electric locks and shunting alarm contacts
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- 12 or 24 VAC or VDC
- 3A SPDT relay output

Environmental

- Operating Temperature: 32° to 149° F [0° to 65° C]

DT-7 Prime Time Digital Timer

Control doors equipped with electrified hardware—with or without access control—with the DT-7 digital timer.

The DT-7 can be used as a stand-alone unit or in conjunction with DK-26 and other products. Versatile programming supports timed, unlocked, locked, or access-control-only states to turn electric locks or other security systems on and off at programmed times.

Features

Standard Features

- 7-day digital timer
- 10 A DPDT relay can be operated in toggle or pulse mode
- 12 programmed on/off times
- Set daily (6 on, 6 off), on selected days, or on blocks of days
- “First Man In” feature delays preset action until first access
- AA battery provides backup to the display module program memory – battery not included
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- 170 mA at 12 or 24 VAC or VDC

Environmental

- Operating Temperature: 32° to 113° F [0° to 45° C]

Shipping Weight

- 0.75 lbs [0.34 kg]

PZ1 Piezo Sounder

The PZ1 can be used as a local or remote alarm sounder for exit delay or door prop alarm.

Features

Standard Features

- Remote annunciator
- Powerful Piezo sounder — 86 db
- Includes anti-tamper screws
- Stainless steel single gang plate 4-1/2" x 2-3/4" [114mm x 70mm]
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- Operates on 5 VDC – 28 VDC
- Rated at 20 mA operating current at 24 VDC
- 103 dB max at 1 ft and 24 VDC

MagnaCare
Warranty

Dual Voltage
12/24

DPA Door Prop Alarm

The DPA complements door position/door state detection with timed logic and relays that provide escalating alerts when a door is held, propped or unsecure after a defined time period.

This unit promotes safety and loss prevention at ancillary exits for healthcare, commercial and retail facilities.

Features

Standard Features

- Multi-functional control timer provides relay action for alarms and alerts
- Monitors whether a door remains open after a defined time frame
- Includes three SPDT outputs providing local and remote signaling
- Digital time settings from 30 to 240 seconds
- Detects attempts to tamper with lock or door status
- Multiple time ranges for escalating alerts
- Bypass mode for valid access/egress needs
- Comes with Piezo sounder and LED
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- Max draw 100 mA at 12 VDC
Max draw 50 mA at 24 VDC
- 5 A SPDT Relays

Environmental

- Operating Temperature:
32° to 120° F [0° to 49° C]

Shipping Weight

- 2.05 lbs [0.93 kg]

DPS Door Position Switches

DPS-W and DPS-M door position switches enable access control systems to monitor the open or closed state of a door.

These switches can transmit an initiate signal to XDT delayed exit logic timers and DPA door prop logic timers.

Features

Standard Features

- Mated magnetic switch and cylindrical magnetic contact
- Recesses into door and frame
- 3/4" [19mm] round installation, 15/16" [23.8125mm] deep
- Provides normally closed SPST switch
- Works with door gap up to 3/4" [18mm]
- Larger cylindrical magnet counters shielding effect of steel
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- Available in white, gray or black

MSS Maximum Security Switches

Maximum security switches for door position detection

Tamper-resistant switches provide versatile door monitoring with armored cable options to detect the status of opened areas in higher security settings.

With multiple options for different environments, MSS can be used with access control or alarm systems to provide peace of mind where status detection is a critical concern.

Features

Standard Features

- Interfaces to access control and alarm systems for remote indication of open/closed status
- Unique “mated” magnetic contact for preventing defeat attempts by foreign magnets
- Can be used to provide initiate signal to XDT delayed egress timer
- Hidden anti-tamper output (MSS-1 and MSS-1G)
- Layered protection for tamper detection and reporting
- SPDT Contact
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- MSS-1 includes jacketed cable for hollow metal applications
- MSS-1G includes a 3-foot [936mm] stainless steel cable
- RT — Enables remote testing to confirm function
- C — Concealed

Specifications

Certifications

- UL 634 Listed
- ULC/ORD-C634 Listed

Electrical

- Main Output: SPDT at max of 125 mA at 24 VDC; 250 mA at 12 VDC
- Tamper Output: Closed when secure; open to alarm — 1A max current

Environmental

- Operating Temperature: -40° to 150°F [-40° to 65°C]

Shipping Weight

- 1.5 lbs [0.68 kg]

SECURITRON
ASSA ABLOY

LM Latch Monitors

The LM Series interfaces with an access control or alarm system to indicate the state of the latchbolt.

Used alone or in conjunction with a door position switch, the LM provides confirmation that the door is secure, preventing false alarms and unauthorized access while providing tamper detection. Can also be used to transmit an initiate signal to XDT delayed egress logic timers.

Features

Standard Features

- Electronically detects and reports mechanical latch and bolt positions
- Provides peace of mind that the door is secure
- Installs easily, conceals behind existing hardware
- Requires no jamb or strike plate modification
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Optional Features

- LML-1 provides SPDT switch, fits ANSI 4-7/8" [123.825mm] cutout
- LMS-1 provides SPDT switch, fits ANSI 2-3/4" [69.85mm] cutout
- LML-2 monitors mortise latch and deadbolt separately with two SPDT switches

Specifications

Certifications

- UL 634 Listed
- ULC/ORD-C634 Listed
- ANSI/UL 294 Listed
- CSFM — California State Fire Marshal Approved

Electrical

- Contact Rating: SPDT 2A at 24V

Environmental

- Operating Temperature: -40° to 160°F [-40° to 71°C]

RB-4 Relay Board

The relay board provides normally-open or normally-closed relays that can be interconnected.

Ideal for interlock installations or wherever a basic relay board is used to trigger action, shunt alarms or report status from an access control system.

Features

Standard Features

- 4 DPDT relays with 2 A contacts
- Individual coil connections — common negative or positive
- Replaces socket mount relays
- Dry contact connections via screw terminals
- Relays have low current coils (13 mA at 12 VDC; 8 mA at 24 VDC)
- Allows operation from most LED drive outputs
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Dimensions

- 4"W x 3-1/2"H
[101.6mm W x 88.9mm H]

Electrical (Max Draw)

- 32 mA at 12 VDC or 32 mA at 24 VDC

Environmental

- Operating Temperature: -13° to 158° F [-25° to 70° C]

How to Order

MODEL SERIES	VOLTAGE
RB-4	- 12
RB-4 Relay Board	12 12VDC
	24 24VDC

RLP

Relay Logic Pack

The economical, multi-function RLP logic circuit can be used as a DPDT latching alarm relay.

It can also provide a relay for two-door interlocks (mantrap), or can initiate a brief signal delay to eliminate timing problems among multiple monitoring points on a door under access control.

Features

Standard Features

- Provides additional relay to access control systems requiring NO or NC dry status signals
- Provides a brief delay to harmonize door state reporting from multiple detection points
- Can create a relay interlock circuit
- Use with locks to create an interlocked trap entry
- Provides time delay of door operator when electric lock is used
- MagnaCare® lifetime replacement, no-fault, no questions asked warranty

Specifications

Electrical

- 30 mA at 12 VDC
- 15 mA at 24 VDC
- 1 A DPDT relay

Environmental

- Operating Temperature: -13° to 158° F [-25° to 70° C]

Icon Glossary

ICON	DESCRIPTIONS	
 Grade 1	Grade 1	Electric Strikes — 1500 lbs or greater static holding force, 70 ft lbs of dynamic holding force, and withstands 500,000 cycles of operation Electromagnetic Locks — 1500 lbs or greater static holding force, 70 ft lbs of dynamic holding force, and withstands 1 Million cycles of operation
 Grade 2	Grade 2	Electric Strikes — 1000 lbs or greater static holding force, 50 ft lbs of dynamic holding force, and withstands 300,000 cycles of operation Electromagnetic Locks — 1000 lbs or greater static holding force, 50 ft lbs of dynamic holding force, and withstands 1 Million cycles of operation
 Grade 3	Grade 3	Electric Strikes — 500 lbs or greater static holding force, 33 ft lbs of dynamic holding force, and withstands 100,000 cycles of operation Electromagnetic Locks — 500 lbs or greater static holding force, 33 ft lbs of dynamic holding force, and withstands 1 Million cycles of operation
 MagnaCare Warranty	MagnaCare® Warranty	Securitron's exclusive MagnaCare® lifetime replacement, no-fault, no questions asked warranty
 SecuriCare Warranty	SecuriCare Warranty (3)	Securitron's exclusive SecuriCare three-year, no-fault, no questions asked warranty
 Mortise Locks with Deadbolt	Mortise Locks with Deadbolts	A lock case that fits into a prepared rectangular shaped recess in the edge of a door. Deadbolts are bolts having no spring action, but are operated by a thumb turn or key.
 Mortise Locks without Deadbolt	Mortise Locks without Deadbolt	A lock case that fits into a prepared rectangular shaped recess in the edge of a door. Latchbolts are a spring actuated bolt, with a beveled surface, which, when aligned with the strike plate, engages it automatically.
 Cylindrical Locksets	Cylindrical Lockset	A lock for a door prepared with one or more cross-bores and one or more edge-bores
 Rim Exit Devices	Rim Exit Devices	A latch mechanism that releases by depressing a cross bar or panel extending across the width of the door sometimes called a panic bar, panic exit hardware or fire exit bolt
 Specialty Locksets	Specialty Locksets	Includes specialty locksets including but not limited to cylindrical deadbolt, hook bolt, unit lock, weiser bolt, and narrow style aluminum lock
 Swinging Door	Swinging Door	For use on swinging doors or cabinets
 Sliding Door	Sliding Door	For use on sliding doors or cabinets
 Roll-Up Door	Roll-Up Door	For use on roll-up doors or cabinets
 Drawers	Drawers	For use on cabinet drawers

ICON	DESCRIPTIONS	
 Field Selectable (Fail-secure /Fail safe)	Field Selectable Fail Secure/Fail Safe	Product able to be configured in the field to operate in fail safe (power to lock) or fail secure (power to unlock)
 Dual Voltage 12/24	Dual Voltage	Product able to be configured in the field to operate on either 12 or 24 volts or provide 12 or 24 volts
 Auto Sensing Dual Voltage 12/24	Auto Sensing Dual Voltage	Product automatically configures to operate on either 12 or 24 volts
 PoE Friendly	PoE Friendly	An electronic locking device with a standby current draw of less than 300 mA at 12 VDC, which ensures compatibility with most PoE enabled door controllers with sufficient capacity to allow for other access control peripherals to be powered around the door
 Battery Backup	Battery Backup	Supports the addition of batteries to provide backup power in case of a primary source power outage
 Fire Rated	Fire-Rated	Products with a Fire Rating have been evaluated and listed to UL10B, "Fire Test of Door Assemblies" and UL10C, "Positive Pressure Fire Tests with Door Assemblies". The hourly rating qualification is also noted
 Windstorm Resistant	Windstorm Resistant	Windstorm resistant products are certified to meet the performance requirements of windstorm-rated assemblies on exterior swinging door applications (Products are designed and tested to perform in sustained winds up to 150 miles per hour)
 Preload	Preload Capable	Preload capable products are capable of opening under load as defined applicable ANSI/BHMA standards
 Outdoor Rated	Outdoor Rated	Product has been tested and shown to comply to UL1034, including the "Outdoor Equipment Use" section
 Burglary Rated	Burglary Rated	Product has been tested and shown to comply to UL1034
 UL CERTIFIED	UL Listed	UL Listed means that UL has tested representative samples of the product and determined that it meets UL's requirements. These requirements are based primarily on UL's published and nationally recognized Standards for Safety
 CE	CE Listed	CE listed is a conformity marking for certain products sold within the European Economic Area (EEA)
 CERTIFIED Environmental Product Declaration	Environmental Product Declaration	A UL-certified Environmental Product Declaration (EPD) is a thorough, internationally harmonized report produced by a manufacturer documenting the ways a product, throughout its lifecycle, impacts the environment

Basic Magnetic Locking System

Use on any exit door where free egress is permitted

Inside Operation

The door is secured via the Magnalock®. Free egress is accomplished by pushing on the TSB which de-energizes the lock. Contact the factory for additional exit devices necessary for fire-rated installations.

Outside Operation

The door is secured via the M62 Magnalock. Entry is permitted using an optional entry device which releases the magnetic lock.

System Components

M62 Magnalock	p. 18
BPS-24-3 Power Supply	p. 104
TSB Touch Sense Bar	p. 96
DK-37 Digital Keypad	p. 72
TSB-C Door Cord*	p. 146

*Door cord is included with the TSB Touch Sense Bar

Delayed Egress Magnetic Locking System

Use on exit doors where a 15 to 30 second delay is desirable before egress is allowed. This exit delay system is typically used to fight risk of loss by theft in retail sites, museums, libraries, etc. Exit delay technology is also an important safety consideration for hospitals and nursing homes as these facilities are often responsible for preventing unauthorized exit by patients under their supervision. This system meets NFPA life safety code 101 and all US/Canada model codes.

Inside Operation

The door is secured via the Magnalock. Egress without the alarm is accomplished using an optional bypass device. Emergency egress is accomplished when the BA-XDT is activated by pushing on the TSB bar which will initiate the exit delay cycle.

Outside Operation

The door is secured via the M62B Magnalock. Entry is permitted using an optional entry device which releases the magnetic lock and shunts the exit delay system as well as the alarm contacts. The Magnalock will release after the selected delay period has expired, allowing egress. The Magnalock will not resecure until the door system is reset using the MK Key switch.

Store Front Magnetic Locking System

Use on any bi-directional exit door where free egress is permitted

Inside Operation

The door is secured via the SAM. Free egress is accomplished by pushing on the TSH which de-energizes the lock.

Outside Operation

The door is secured via the SAM Magnalock. Entry is permitted using an optional entry device which releases the magnetic lock.

System Components

SAM Shear Magnalock®	p. 40
BPS-24-3 Power Supply	p. 106

Motion Activated Magnetic Locking System

Use on any interior or exterior access controlled egress security door

Inside Operation

The door is secured via the Magnalock. Free egress is accomplished by activating the motion sensor or by pushing the emergency exit button. Both will de-energize the lock.

Outside Operation

The door is secured via the M680EBDX Magnalock. Entry is permitted using the keypad or optional entry device.

System Components

M680EBDX EcoMag®	p. 6
BPS-24-3 Power Supply	p. 104
EEB Emergency Exit Button	p. 81
DSB	p. 94
DK-38 Digital Keypad	p. 74
TSB Touch Sense Bar	p. 96

Glass Door Magnetic Locking System

Use on any full glass interior or exterior access controlled egress security door. The R100 surface mounted wireless reader with ASSA ABLOY Aperio® technology offers an aesthetically appealing way to extend access control to glass, stone, granite or marble entryways.

Inside Operation

The door is secured via the M380BDX Magnalock adhered with 's accessories for glass door installations. Free egress is accomplished by activating the Request to Exit or by pushing the emergency exit button. Both will de-energize the lock.

Outside Operation

To enter, an RFID credential is presented to the R100-H surface mount wireless reader. The door controller checks the credential and if it is approved, releases the M380BDX.

System Components

Gate Locking System

Use on any exterior access controlled security gate

Maximize your gate locking system by pairing it with an Ameristar fence. ASSA ABLOY group brand Ameristar, based in Tulsa, Oklahoma, focuses on increasing strength and durability, enhancing the aesthetic appearance of modern fence products, and promoting ease of installation. Ameristar is known for producing the highest quality residential, commercial, industrial and high-end security fences in today's market place, including sites such as the Statue of Liberty, the 9/11 Memorial in New York City and the Dallas Cowboys Stadium.

Outside Operation

The gate is secured via the GL1 Gate Lock. Entry is permitted using the weatherproof keypad.

System Components

GL1-FS Gate Lock	p. 54
AQD2 Power Supply	p. 120
Flex Mounting Kit	p. 56
DK-37 Digital Keypad	p. 72
Battery B-24-5	p. 104

Securitron

Terms & Conditions

PRICES: All prices are subject to change without notice. Prices listed on the Securitron website will serve as the most current list price. All shipments will be made at prices in effect at the time of shipment. The customer shall be responsible for payment of all applicable sales and/or use taxes and freight costs.

MINIMUM ORDER: Minimum product charge per invoice is \$150.00 USD.

PAYMENT TERMS: Net thirty (30) days from date of invoice. Interest at the rate of up to 1-1/2% per month may be charged on all past due accounts. An order received on an account which has not been paid within 45 days of the date of invoice may not be processed until the account is current. Custom orders may require a deposit.

DELIVERY TERMS: All prices are Ex-works factory. Purchaser assumes the risk of loss or damage to the goods while in transit from the point of shipment. Securitron reserves the right to make delivery in installments. Installments shall be separately invoiced and paid for when due. Delay in delivery of an installment shall not relieve the purchaser of its obligation to accept remaining deliveries.

SHORTAGE: Any claim for shortages must be made to Securitron in writing within one (1) week of receipt of merchandise.

WARRANTY RETURNS: A Customer Care Form (CCF) for defective product must be obtained from Securitron before any merchandise can be returned. CCF's are valid for sixty (60) days from date of issuance. Goods returned under the terms of MagnaCare® and SecuriCare® Warranties may require a copy of the original invoice.

RETURNS: A Customer Care Form (CCF) must be obtained from Securitron before any merchandise can be returned. CCF's are valid for sixty (60) days from date of issuance. Items returned are subject to restocking fees.

CANCELLATIONS: Any order may be subject to a 5% cancellation charge for catalog items. Cancellation of non-catalog or custom items will be subject to a 20% cancellation charge plus all costs (both direct and indirect) incurred by manufacturing at the point of cancellation that are properly allocated to the cancelled item(s).

LIMITATION OF LIABILITY: Neither party will be liable to the other for any delay or failure in performance arising directly out of war, sabotage, insurrection, riot, and any other act of civil disobedience, act of public enemy, fire, explosion, flood, storm, or other act of God or nature, or similar cause beyond its reasonable control, including shortage or unavailability of labor or materials. If, notwithstanding the foregoing limitations, Securitron has any liability to the purchaser, the purchaser agrees that the total liability to the purchaser for all losses, damages, and causes of action, whether in contract, equity, tort (including without limitation, negligence and gross negligence), or otherwise, will not exceed the amount the purchaser paid to Securitron for the products (including, without limitation, incidental or consequential damages, damages for lost profits or business interruption, and punitive damages).

NO THIRD PARTY LIABILITY: If the purchaser uses the Securitron Products on behalf of others or provides to others any products referenced herein, the Securitron Parties shall have no liability to such persons whatsoever, and the purchaser agree to defend and indemnify the Securitron Parties from any and all claims and demands asserted against them, and from any legal fees, costs and other expenses that the Securitron Parties incur therewith.

Customers purchasing from Door Security Solutions Canada can find Canadian terms and conditions at assaabloydss.ca/terms

Warranty Policy

In 1999 Securitron introduced the first no-fault, no questions asked warranty to the industry, MagnaCare®. We believe that the best products in the industry should be supported by our commitment to deliver the highest quality products and services. Securitron is proud to now extend the most comprehensive no-fault, no questions asked warranty coverage to all of our products and solutions. This is our expectation and commitment to you – our valued customer.

MagnaCare Warranty

Duration: Lifetime

Condition: Any reason, including, but not limited to, installation error, vandalism or force majeure.

Replacement: Replacement product or equivalent shipped at Securitron expense via next day air freight in most cases.

Products Covered:

- Electromagnetic and Specialty Locks
- Power Supplies (excluding BPSS) and Power Transfers
- Push Buttons, Keypads, Keyswitches and Egress Devices

Check your individual product to determine warranty coverage. Batteries and consumables are not covered by Securitron Warranty programs. Replacement products, at Securitron's sole option, may be the identical item or a unit which serves as a functional replacement. If the customer has an account with Securitron or a valid credit card, the customer may order an advance replacement product, whereby Securitron will charge the customer's account for the price of the product plus next day air freight, and will credit back to the customer the full amount of the charge, including outbound freight, upon Securitron's receipt of the original product from the customer. Securitron's sole and exclusive liability, and customer's sole remedy, is limited to the replacement of the Securitron product when delivered to Securitron's facility (freight and insurance charges prepaid by customer).

SecuriCare 3-year Warranty

Duration: Three years from date of shipment

Condition: Any reason, including but not limited to, installation error, vandalism or force majeure

Replacement: Replacement product or equivalent shipped at Securitron's expense via next day air freight in most cases.

Products Covered:

- R100 Aperio® Wireless Products
- BPSS Solar Power Supplies
- GL1
- Accessories

The ASSA ABLOY Group is the global leader in access solutions. Every day we help people feel safe, secure and experience a more open world.
