Electric Strike, Single Door Rim Night Latch Application

Installation Instructions

Note: Check with factory for retrofit applications.

- 1. For lock or device preparation, see their directions.
- 2. Prepare frame for strike (see other side).
- 3. Wire strike (Figure 1). (Switches on 6114DS only.)
- 4. Test strike: Apply solenoid power. Fail secure (FSE) lip unlocks. Fail safe (FS) lip locks. Figure 1 shows status of switches.
- 5. Install strike with four #10-24 screws. Make sure clearance between latch bolt and strike lip is 1/32" (Figure 3). If not, shim night latch as necessary.
- 6. If latch bolt does not extend far enough to actuate tripper, install extension (Figure 4). (Tripper on 6114DS only.)
